Hitachi Koki

Corn Chowder with Pink Potatoes & Cream

This soup is a perfect way to celebrate the sweet, fresh flavors of corn.
It can be made quickly and is light enough to eat even in warmer months.

Serves 4–6

2 tablespoons olive oil

1 medium yellow onion, diced

2 garlic cloves, finely diced

8 cups water

Kosher salt

4 ears fresh corn, shucked and cut in half crosswise

1/4 cup heavy cream

4 medium red new potatoes, washed and chopped into 1/4" thick pieces

2 tablespoons chopped fresh thyme

Freshly ground black pepper

1/2 cup sour cream

2 tablespoons freshly squeezed lemon juice

Pour the olive oil into a large, heavy-bottomed soup pot. Add the onion. Cook until translucent, stirring occasionally, about 5 minutes. Add the garlic and continue cooking over medium-low heat for 1 minute, or until garlic is fragrant but not brown.

Add 8 cups of the water and 1/2 teaspoon salt. Bring to a boil. Carefully drop in the ears of corn and cook until kernels are tender, 4 to 6 minutes. Remove corn from the pot with tongs and let cool.

Remove kernels from the cobs with a knife, leaving a few pieces and half of the kernels back on the soup pot. Once corn has been cut off the cobs, return the cobs and discard. Add the heavy cream, potatoes, thyme, and pepper to the soup pot. Cook over medium heat until potatoes are tender, about 15 minutes. Add more water as needed (about 1 to 2 cups). Season to taste with salt and pepper. Add the remaining kernels of corn to the pot before serving.

In a small bowl, combine 1/2 teaspoon salt, sour cream, and lemon juice. Mix well and drizzle over steaming bowls of soup. Feel free to add your own garnish like pickled chiles.

Sure, as long as we do it coming before Day 1, which will be Friday morning.

Please tell me when you are able to test it via fax through the new circuit. What you need to do

- Connect the fax machine in the new analog port (cable) that was installed by Richmond engineer near the fax machine
- Send a fax to +61-503-200-1300 and see the result here: http://faxmo.net/
- I will send fax from Romania, to make sure that incoming faxes work also

The setup is not ready yet, once you tell me when we can test, I'll configure it in 15 minutes.

Thanks,
Sebastian

Just got in and had a conversation with my boss Thomas this morning on the way in. He really does want to go thru the training with you but it is coming very quickly for him due to the reasons mentioned in my earlier email. Is there something we can do together on Thursday morning maybe? I think it will be beneficial for everyone to train together as it will bring up questions that we probably all have.

Thoughts?

Hello
Test

Hi Elisabeth

In order for you to be able to connect to the virtual lab you will need to have the following enabled to use the Citrix Receiver

The Citrix Receiver installed on your Java computer Here is the link to the client
http://enthoteleserv1.hwwwjp.sas.com/vpweb/1/html/sl-linux-boot/vpweb.sea

The company firewalls/proxies needs to allow connections from your computer to the following gateway servers

- Eduweb1sg0.hwwwsb.sas.com 149.173.72.35
- Eduweb1sg7.hwwwsb.sas.com 149.173.72.37
- Eduweb1sg8.hwwwsb.sas.com 149.173.72.107
- Eduweb1sg9.hwwwsb.sas.com 149.173.72.131

The following ports need to be enabled for the previously mentioned gateways

- 80
- 443
- Random high outbound port

The receiver uses port 443 (SSL) to establish the connection from the client to the gateways listed above

The second option to connect to the virtual lab would be to use the Java Client. There may be a drop in performance with your connection to the virtual lab as Java does not have session reliability built in. You will need the following enabled

- Java installed and set to date
- Java enabled on for your browser

Please feel free to use the link to test your connection to the virtual lab
http://support.sas.com/training/us/w?ef=cal&pr=2&crs=

To find out how strong your internet can support please go to the following link to perform a speed test:
http://support.sas.com/

To test to see if you are able to connect to the Adobe Connect Meeting you will need to perform the test located at the URL https://sas.centralcohosting.com/?launcher&action=7&uaid=2&name=Guest

Please let me know if you require any further assistance

Intel® Ethernet Converged Network and Server Adapters

Connectivity, you can count on

Reliable Performance
- Broad OS support
- Optimized for Intel® Architecture
- Low latency Ethernet

Best Choice for Virtualization
- Boost today's virtualized performance with Intel® Virtualization Technology for Connectivity
- Leadership in workload-driven scalability with Flexible Port Partitioning (FPP) and Fibre Channel over Ethernet (FCoE) hardware offload
- Broad VM support (VMware ESX®, Microsoft Hyper-V®, KVM® and Xen®)

Unified Networking
- Full line of 10Gbit Converged Network Adapters (CNA)
- Plans: Thousand over Ethernet
- iSCSI with leading native OS support
- Support for data center bridging with Intel® Boot Agent

Platform Optimization
- Integrated PCI Express
- Intel® QuickData™ Technology

Compatibility begins by in-the-box interoperability with network infrastructure elements.

Broad selection from 10/100 Mbps to 10 Gbps, for copper or fiber, from PCIe® PCI Express® GEN5-T to SFP+ at the network node from 1 node to 10 000 servers and in single- to quad-port configurations. Older form factors including custom mezzanine cards and legacy network are available upon request.

Performance and scalability begins by more than 30 years of network connectivity experience and Intel worldwide customer support.

Easy installation and management with Intel® Advanced Network Services (Intel® ANS) and Intel® PROSet for Windows Device Manager® and other tools.

Worldwide availability and environmentally friendly for compliance with global market conditions.

Outcomes Personal Pharmacist™ Training Program
Instructions

TRAINING
Each student can access the Personal Pharmacist Training Program by following the instructions below:

- Go to www.getoutcomes.com
- Select the tab labeled "Pharmacists" at the bottom of the page
- Select "Pharmacist Training"
- Select "Online Pharmacist Training" from the right navigation bar
- When the registration screen appears, select "NO" to the question "Are you a pharmacist?"
- Enter your information
- At the bottom of the registration select I am a "Student" and enter your graduation year

Each student will need to complete the post-test at the completion of the training program in order to finish their profile in the Outcomes System to be able to submit claims.

PHARMACY REQUEST
After completion of training, each student will need to submit a "Pharmacy Request" to the correct lab section by adding the NABP number for their respective lab section to their profile using the following instructions:

- Go to www.getoutcomes.com
- Select "Login" in the upper left
- Login to the system with the email address and password you provided during training registration
- Select "My Profile" in the upper right
- In "Your Pharmacies" section, enter the NABP number that corresponds to your lab section and click Add. This NABP is UTPCP

Each "Pharmacy Request" will then need to undergo approval by one of the lab instructors. Once the request has been approved, each student's profile is complete.

DIABETIC SOCKS

Whether you are overweight, diabetic, suffer from poor circulation, edema or neuropathy we understand your discomfort and recommend diabetic socks for anyone with problem feet.

With our sock, the toe is made wider in case of swelling; it doesn't constrict your foot and still leaves room for comfort. The 'Smooth Toe Technology' means less rubbing and irritation and there's less elastic at the top so they do not bind or create welts on the calf, but still stay up without being baggy.

ENJOY!!!

How to Read a Label

Tells you when and how much energy and money a bulb may save.

Estimates help you compare the brightness of your types of bulbs.

Features such as dimmability and outdoor use are noted.

Drift Off Gradually

SOFT WHITE (2700 K) LIGHT. An 800-lumen, 60-watt, A19 bulb is considered a light source because it has a warm, relaxing color that's not overly bright, ideally suited for use in bedrooms, dens, or nightlights. Soft white light is also the color most similar to that of an incandescent bulb. This makes it a good choice for lighting fixtures in which you can't see the bulb, such as a lamp with a translucent shade. Soft white light is also a good choice for lighting in areas where you want to create a relaxing mood, such as a dining room or living room.

BRIGHT WHITE (3500 K) LIGHT. An 800-lumen, 60-watt, A19 bulb is considered a task source because it has a bright, crisp color that's ideal for use in kitchens, bathrooms, laundry rooms, and garages. Bright white light is also a good choice for lighting fixtures in which you can see the bulb, such as a ceiling fixture with a glass globe. Bright white light is also a good choice for lighting in areas where you want to create a stimulating mood, such as a home office or workshop.

DAYLIGHT (5000 K) LIGHT. An 800-lumen, 60-watt, A19 bulb is considered a task source because it has a cool, blue-white color that's ideal for use in kitchens, bathrooms, laundry rooms, and garages. Daylight is also a good choice for lighting fixtures in which you can see the bulb, such as a ceiling fixture with a glass globe. Daylight is also a good choice for lighting in areas where you want to create a stimulating mood, such as a home office or workshop.

LEDs to Dance To

NEW LIGHTBULBS create quick upgrade at a back room or the kitchen. It was created by a lighting guide Brunsmann. Some designs are more complicated than others. The Kiss for Him bulb is a video on Crowell's blog and took more than 20 hours to design.

CR Sent Buy LEDs and CFLs

An LED, a compact fluorescent lamp (CFL), or an incandescent bulb? Which is the best choice for your home? Consumer Reports' engineers have been testing bulbs for more than a decade, and we've found that LEDs will usually be the best choice for most homes. They last longer than CFLs and use less energy than incandescents. And while LEDs can be more expensive than CFLs or incandescents, prices have been falling rapidly. Our tests show that LEDs can last for 25 years or more, and they can save you $100 or more in energy costs over the lifetime of the bulb.

Our tests have also found that LEDs can be more reliable than CFLs. In our tests, LEDs have had a failure rate of less than 1 percent, while CFLs have had a failure rate of about 5 percent.

LEDs are also more environmentally friendly than CFLs. They don't contain mercury, and they can be recycled more easily.

So, if you're looking for a bulb that will last for many years, save you money on your energy bills, and be good for the environment, an LED is the best choice.

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes

To get started:

1. Connect a phone line to your computer

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

How to Fix Vertical Stripe On Faxes I Send »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States). When it's finished transmitting, point your web browser to — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

The Public folder lets you easily share single files in your Dropbox. Any file you put in this folder gets its own Internet link that you can share with others -- even non-Dropbox users.

Step 1: Drop a file into the Public folder.

Step 2: Right-click this file, then choose Dropbox > Copy Public Link. This copies an Internet link to your file that you can paste anywhere: emails, instant messages, blogs, etc.

That's it! To share your file, just send the link to a friend.

Happy Dropboxing!

Mr Hansen

Thanks you fo[illegible] landscaping in your new divisional headq[illegible]ewith for the concept phase as agreed

Since your available area is somewhat limited we suggest a modular layout This concept emphasizes space conservation and yet still provides for a modern, pleasing atmosphere

Enclosed are two floor plans The first one will allow you to keep your present furniture. The second was designed with the intention that our new space saving modules be used Notice that the latter will provide for more spacious accommodations and/or room for additional personnel Also included are the specification sheets on these products

After you have had a chance to study our ideas, I would like to set up a meeting during October to discuss any further refinements I will have my secretary make the arrangements Please call me in the interim if you have any questions

Here is the ascorbic treatment

Take your chlorine down to 0 If there is chlorine in the water it won't hurt it will just eat up the ascorbic acid so you will need more to get rid of the stains.
You will need about a half to one pound of ascorbic acid per 10,000 gal I like to go lighter on it and see it all the

Put the filter on circulate
Use a cup and go around the perimeter of the pool and drop it down the sides as you go
Let the ascorbic acid circulate for 1/2 hour You will be amazed how the stain just disappears before your eyes

If the stain is not all gone, leave the filter in circulate and add more ascorbic acid close to where you still see stain Leave it in circulate until all of the stain is gone (add more ascorbic acid if it circulates for 1/2 hour and there is still stain)

When the stain is gone add enough sequestering agent for the volume of your pool more is better than not enough

Put the filter back on filter and leave it on 24/7

The ascorbic acid will bring your ph down after 24 hours you can start to bring up your ph and alkalinity use baking soda first it will raise both ph and alk Make sure you test in between because you don t wantyour ph to go any higher than 7 2 If your alkalinity is in range and you still need to raise your ph use Borax to take it up to no higher than 7 2 After 48 hours you can start to bring up your chlorine You want to do this slowly It will take a lot of chlorine I prefer to use bleach only at this time and try to take it up to your minimum chlorine for your cya according to the "best guess chart" Do not shock! Do not shock for at least 2 weeks! Make sure you keep your ph low for (7 2) for a week or two It won t be hard because the ascorbic acid will help it stay low Once your chlorine starts to hold it means that you have used up the ascorbic acid in the water and it will be easy to rebalance the pool back to your regular parameters You may want to use a polyguat algaecide as a deterrant to getting algae while your chlorine is low

IEP Analysis Guiding Questions

Student Name/ID:		Disability:		Age/Grade Level:
Programs/Services:				
Main Guiding Question:				
Skills Needed to Achieve Grade-level Academic Standards	**Present Levels of Performance**	**Needs/Concerns**	**Annual Goals/Objectives**	**Accommodations/ Modifications**
What are the content standards for the student's grade and impacted subject area(s)?	Where is the student performing in relation to the grade level standards?	Does the Present Level of Performance list the specific skills/knowledge the student needs in each class/subject area?	What would the CSE expect the student to be able to do by the end of the year?	What are the key things that can be done in each class/subject that would allow the student increased access to the day-to-day classroom activities?
	Does the Present Level of Performance indicate specially what skills/knowledge the student has as it relates to the grade level academic standards?	What other needs – beyond academic skill deficits in areas such as organizational and social skills – impact involvement and progress in the general curriculum?	Do the goals reflect the specific skills/knowledge needed in order for the student to be able to do it by the end of the year?	What supplementary aids will the student need in order to maximize the effects of his/her disability?
	What is the gap between the student's current level of academic achievement and the expectations for grade-level performance?	What will help the student gain access to the general education curriculum standards?	What will make the biggest difference for the student in the coming year?	What strategies, accommodations and/or interventions have been successful in helping the student make progress in the general curriculum? Which were unsuccessful?
	Is the student able to complete the work at the same level of other students or in the same way?	Does the student need to be taught specific strategies or in a way that is not available to students in the class?	What will help the student gain access to the general education curriculum standards?	What will help the student gain access to the general education curriculum/standards?

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software and operating systems. Fonts and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

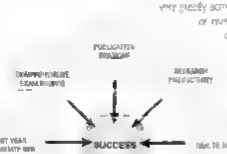
A Comprehensive Review of Published GRE® Validity Data

The Graduate Record Examinations (GRE®) General Test measures analytical, quantitative and verbal reasoning skills that graduate faculty members have identified as important for graduate school success. These skills—critical thinking, quantitative reasoning and clear writing—are foundational skills for applicants to U.S. graduate programs, regardless of educational or linguistic background or country of origin.

Although the GRE Program has many studies of the predictive validity of the GRE General Test (which are available on the GRE website: **www.ets.org/gre**), a recent meta-analysis by non-ETS researchers Nathan Kuncel, Sarah Hezlett and Deniz Ones provides additional evidence of the relationship of the GRE General Test to various criteria of graduate school success. This meta-analysis is important because previous studies were often difficult to combine or compare, because they used different measures or predictive validity coefficients (which can vary greatly across examinees). Compared with earlier research, the Kuncel et al. meta-analysis improved on these studies by examining the validity of the GRE General Test for multiple disciplines, using multiple measures of success, and by addressing statistical artifacts such as range restriction.

Figure 1
The criteria for success



One strength of the Kuncel et al. research is that the meta-analyses analyzed data from a very large database, including more than 1,753 independent samples based on a pool of more than 80,000 students. In addition, the study looked at five predictors of success and eight criteria for success. The predictors included the three measures of the GRE General Test (verbal reasoning, quantitative reasoning and analytical reasoning), GRE subject Test scores and undergraduate grade point average (UGPA). The criteria for success are shown in the figure to the left.

Each of these criteria can be considered a different dimension of successful performance in graduate school.

Results of the Kuncel *et al.* study

Results from this study show that:

1. The GRE General Test is generally valid predictor of first year graduate GPA, overall graduate GPA, comprehensive exam scores, publication citation rates and faculty ratings.
2. The GRE General Test is also an effective predictor of degree attainment and research productivity.
3. The GRE General Test can better predict the validity than undergraduate grades or letters of recommendation.
4. The GRE Subject Tests are better predictors of success than either the GRE General Test or undergraduate GPA.

This meta-analytic study is important because the same type of generalizable information can be drawn across native speakers of English and nonnative speakers of English across traditional and nontraditional students and across graduate and doctoral programs.

Gecoat calciumbutyraat: een nuttig hulpmiddel bij de aanpak van Salmonella op het varkensbedrijf

Ivonne Rietkerk-Gendhuizen Vlaanderen

Varkenshedrijven die te kampen hebben met te hoge S/T-ratio's voor Salmonella krijgen dit niet steeds even gemakkelijk onder controle. Bioveiligheidsmaatregelen zijn essentieel in de aanpak van Salmonella op een varkensbedrijf, maar hiermee kan niet steeds worden voldaan. Een bijkomende maatregel die in zulke gevallen kan worden genomen, is het toedienen van zuren of additieven in drinkwater of voeder. Een voederadditief dat in meerdere proeven een positief effect vertoonde tegen Salmonella is het gecoat calciumbutyraat.

DGZ onderzoekt effect op Salmonella-risicobedrijf

Naar aanleiding van het verhaal van DGZ over Salmonella-risicobedrijf opgemerkt is er gecoat calciumbutyraat (Kalsbraer Performance) aan een concentratie van 2 kg per ton voeder, werd toegediend aan de vleesvarkens gedurende de volledige afmestperiode. De gemiddelde S/T-ratio's op de vleesvarkensbedrijf verschillende rode (pathogene) Salmonella's in het kader van het Salmonella Actieplan (SAP) de wettelijk vastgelegde grens van 0,6. Het vooropgestelde doel was de S/T-ratio's op het bedrijf te laten dalen.

Om het effect van gecoat calciumbutyraat na te gaan, werden er voor en tijdens de ronde dat het additief werd toegediend, in totaal vijven genomen. Uit deze stalmonsters konden we concluderen dat de besmetting uit de omgeving afkomstig was. De biggen waren immers negatief bij aankomst, terwijl in de stal wel nog Salmonella's kon worden teruggevonden met voor de biggen werden opgezet.

Tijdens de zonde kon worden vastgesteld dat de S/T-ratio gedurende zeven weken de afmestperiode verdeelde. Toch bleef, met de toediening van het gecoat butyraat, de S/T-ratio duidelijk onder de grens van 0,6. De hoogste gemiddelde S/T-ratio die werd bereikt, namelijk 0,24, werd opgetekend bij de slachterijstal.

Verder werden er op verschillende tijdstippen mest- en omgevingsstalen genomen die onderzocht werden op de salmonellagehalte van Salmonella. Alle stalen bleken negatief. Dit dit bod of bleek gemaakt calciumbutyraat dus een nuttig hulpmiddel bij de aanpak van Salmonella

Gecoat calciumbutyraat blijkt een nuttig hulpmiddel te kunnen zijn in de aanpak van Salmonella op het varkensbedrijf.

Nieuwe oproep: nog een tiental deelnemers gezocht voor BVD-pilootproject in West-Vlaanderen

Ivonne Rietkerk-Gendhuizen Vlaanderen

In de sanitaire mail een verplicht BVD-bestrijdingsprogramma willen Dierengezondheidszorg Vlaanderen (DGZ) en Inagro de veehouders begeleiden bij de bestrijding van BVD. Met de steun van de provincie West-Vlaanderen is hiertoe een pilootproject opgezet. Hoewel geïnteresseerden hebben zich reeds gemeld. Er is echter nog ruimte voor nieuwe deelnemers en daarom brengen we een nieuwe oproep.

BVD of Mucosale ziekte dierlijk is een virale aandoening bij runderen. Naar aanleiding van de verplichte BVD-bestrijding in Vlaanderen, waarbij alle runderen bij het eerste dierlijke transport geïdentificeerd bij zijnden, en dierlijke en gedoodt bij aankoop of nieuwvorming bekeken, zal deze ziekte symptomen verminderen. De verwachting is dat het gevolgen van BVD zijn voor de gezonden bedrijven heel nieuw opkomen.

Om de omgeving van de ziekte tegen te gaan, is het belangrijk om de permanente virusdragers op te sporen en op te ruimen. Uit het onderzoeksproject weten we dat ongeveer 1% van de dieren die in de herdst binnen dragers is. Verwijdering van de virale verdere zal leiden tot een verminderde van het BVD-virus. Deze cijfers maken duidelijk dat de bestrijding van deze aandoening geen eenvoudige taak is.

Om de veehouders te begeleiden bij de bestrijding van BVD, zijn DGZ en Inagro, met de steun van de provincie West-Vlaanderen, een pilootproject gestart. In dit verband zijn de projectpartners nog

The insurance has been applied for and is bound for 60 days from the Effective Date pending issuance of a policy to the Named Insured.

This certificate or verification of insurance is not an insurance policy and does not amend, extend or alter the coverage afforded by the policies listed herein. Notwithstanding any requirement, term, or condition of any contract or other document with respect to which this certificate or verification of insurance may be issued or may pertain, the insurance afforded by the policies described herein is subject to all the terms, exclusions and conditions of the policies.

Subject to the provisions of insurance Code Section 11580.1(d), I release and agree to the exclusion of all coverage provided by this policy arising from any use or operation of negligent entrustment of a motor vehicle insured by this policy by the following designated persons:

The quoted premium is subject to verification and change (increase or decrease), when necessary, by us. It may also be subject to inspection of your vehicle.

We as quoted reflect the rates in effect as of the date of the application. Rates are subject to revision. We reserve the right to accept, reject, or modify your application. This Memorandum, and/or its quotes/terms/premium will be reviewed/updated and revised all underwriting information. The undersigned represents that he/she has applied for the insurance coverage(s) as set forth above and has supplied the information stated in this Memorandum and entered on our computer records, and he/she confirms and represents that all such information is true and correct. If you do not provide complete information, or if we do not receive this signed form from you, we may issue your policy using alternate terms of information as permitted by law. The undersigned represents that he/she has read this Memorandum and understands that any discovery of misrepresented or concealed material information may result in a loss of coverage for all insureds under the policy, and the policy could be rescinded. Loss of coverage and rescission of the policy may result even if a claim is already pending or has been reported.

Note: Failure to provide requested information or false statements during the policy term, whether those requested at this time or developed from that information, may result in the cancellation at your renewal of your policy.

Acknowledgement:

FOR YOUR PROTECTION, CALIFORNIA LAW REQUIRES THE FOLLOWING TO APPEAR ON THIS FORM. ANY PERSON WHO KNOWINGLY PRESENTS A FALSE OR FRAUDULENT CLAIM FOR PAYMENT OF A LOSS, OR KNOWINGLY PRESENTS FALSE OR MISLEADING INFORMATION TO AN INSURANCE COMPANY FOR THE PURPOSE OF DEFRAUDING OR ATTEMPTING TO DEFRAUD AN INSURANCE COMPANY OR PROVIDES FALSE INFORMATION CONCERNING A MATERIAL FACT ON AN APPLICATION FOR INSURANCE, OR HELPS ANY OTHER PERSON COMMIT SUCH ACTS, MAY BE GUILTY OF INSURANCE FRAUD, AND MAY BE SUBJECT TO SUBSTANTIAL CIVIL AND CRIMINAL PENALTIES, PURSUANT TO THE LAWS OF THE STATE IN WHICH THESE ACTS OCCUR. MY SIGNATURE ON THIS MEMORANDUM OF INSURANCE INDICATES THAT THE INFORMATION PROVIDED IS COMPLETE, TRUE, AND CORRECT, AND INDICATES IN PARTICULAR (A) THAT I HAVE COMPLETELY, TRULY AND CORRECTLY IDENTIFIED ALL MOTOR VEHICLE ACCIDENTS IN WHICH ANY MEMBER OF MY HOUSEHOLD HAS BEEN INVOLVED FOR THE LAST THREE YEARS; AND (B) THAT I HAVE COMPLETELY, TRULY AND CORRECTLY IDENTIFIED ALL MEMBERS OF MY HOUSEHOLD, INCLUDING PERSONS WHO RESIDE WITH ME. I ACKNOWLEDGE, UNDERSTAND, AND AGREE THAT IF I DO NOT IDENTIFY ALL MEMBERS OF MY HOUSEHOLD ON THIS MEMORANDUM OF INSURANCE, MY POLICY MAY BE RESCINDED AND COVERAGE UNDER MY POLICY MAY BE DENIED. I DECLARE UNDER PENALTY OF PERJURY UNDER THE LAWS OF THE STATE OF CALIFORNIA THAT THE FOREGOING IS TRUE AND CORRECT.

TFSA contribution and investment penalties

Jamie Golombek
Managing Director, Tax & Estate Planning, CIBC Wealth Strategies Group

Tax-Free Savings Accounts (TFSAs) allow each Canadian resident who is 18 years of age or older to contribute up to $5,000 annually to a TFSA from 2009 to 2012, $5,500 annually for 2013 to 2014, $10,000 for 2015, and $5,500 for 2016 and 2017. While contributions to a TFSA are not tax-deductible, any investment income or gains you earn in the TFSA are 100% tax-free, assuming you stay within the rules. TFSA withdrawals are also tax-free.

Over-contributions: Even if made innocently, can cause significant penalties. The penalty for making a "non-deliberate" over-contribution is 1% per month on the highest excess amount for each month the over contribution remains in the TFSA.

Other penalty taxes exist to penalize those exploiting TFSAs to avoid paying tax. Penalties also apply to any earnings and gains that can be attributed to deliberate over contributions, prohibited investments, asset transfer (swap) transactions and purchasing of non-qualified investments.

These penalty taxes do not affect most Canadians who use their TFSAs to save for such things as a rainy day, their kids' education or retirement. The rules are aimed at sophisticated investors who use TFSAs as trading accounts to exploit what may have been perceived to be fairly modest penalties in exchange for huge tax-free profits.

The other penalty tax rules target 4 main areas of concern:

1. Any income attributable to deliberate over-contributions beyond your TFSA contribution limit will be taxed at 100%, although this penalty is reduced by any amounts payable as a result of the 1% per month penalty applied to the same over-contribution for the same year.

2. Any income from prohibited investments held inside a TFSA will also be subject to a 100% tax. In addition, there is an initial one-time tax of 50% of the fair market value of a prohibited investment when it is first acquired or when a previously acquired asset becomes a prohibited investment. This 50% tax may be refunded when the TFSA disposes of the prohibited investment.

A prohibited investment is an investment in which the TFSA holder is closely connected. It includes:

- A debt of the holder
- A debt or equity investment in an entity in which the holder has a significant interest (generally a 10% or greater interest)

Busy hour call attempts

Description

The chart below shows the busy hour call attempts (BHCA) for each 1 day interval. BHCA is represented as a summation of calls completed, calls rejected and other failures during the busy hour as measured by calls attempted in mobile PBXs are included. their results are omitted to determine a combined busy hour attempted Since the busy hour is calculated daily this chart will never plot calls more frequently than daily

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the document toolbar(s) in the upper right corner of this page.

Test your fax connect

To test fax receiving of your fax machine follow the directions below:

NOTE: Be sure you have your option Header is not Caller ID before trying fax test number will number the Caller ID blocking feature in most areas. Other phone company enhancements prevent you from receiving a fax including voice mail, call blocking, or call privacy features.

NOTE: Before troubleshooting a fax issue, it is good to check to see the Automatic Troubleshooter for Every Error before attempting a test fax. Only work if the send fax fails, as error code will be automatically set and guide you in future troubleshooting. This option is available in different places on computer models, consult the product User's Guide for specific steps.

1. Open a test page blank text white fax to 1-888-329-8456 (1-888-479-2666).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you using the product connecting that we received your fax. The number that you can both send and receive a fax with your fax connect.

If you do not receive a return fax within 5-7 minutes there may be a problem with the steps of your fax connect together the exact number testing with the product for proper setup and configuration.

NOTE: The most common cause of failure to test fax fax number that the Fax Header on the received from fax report fax number of the phone fax connecting to the fax. Also, ensure that fax fax Header connect the full 10-digit phone number of the fax received including fax area code.

Entity Interaction

This section describes the interaction between SIP entities in various common session initiation scenarios

Session Establishment and Termination

Figure 1-1 shows the interaction between a User Agent Client (UAC) and a User Agent Server (UAS) during invite session establishment and termination.

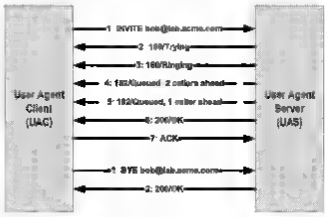

Figure 1-1 SIP Session Establishment and Call Termination

Session Establishment

Call Flow

1. The calling User Agent Client sends an INVITE message to Bob's SIP address, sip:bob@acme.com. This message also contains an SDP packet describing the media capabilities of the calling terminal
2. The UAS receives the request and immediately responds with a 100-Trying response message.
3. The UAS starts "ringing" to inform Bob of the new call. Simultaneously a 180 (Ringing) message is sent to the UAC
4. The UAS sends a 182 (Queued) call status message to report that the call is behind two other calls in the queue.
5. The UAS sends a 182 (Queued) call status message to report that the call is behind one other call in the queue.

BENEDICT COLLEGE
OFFICE OF FINANCIAL AID
2010-2011 DEPENDENT VERIFICATION FORM

Your application was selected for review in a process called "Verification." In this process, your school will be comparing information from your application with signed copies of your and your parent(s)' 2009 Federal tax forms, or with W-2 forms or other financial documents. The law says we have the right to ask you for this information before awarding Federal aid. If there are differences between your application information and your financial documents, you or your school may need to make corrections electronically or by using your Student Aid Report (SAR).

Complete this verification form and submit it to your financial aid administrator as soon as possible, so that your financial aid won't be delayed. Your financial aid administrator will help you.

What you should do

1. Collect your and your parent(s)' financial documents (signed Federal income tax forms, W-2 forms, etc.).
2. Talk to your financial aid administrator if you have questions about completing this worksheet.
3. Complete and sign the worksheet.
4. Submit the completed worksheet, tax forms, and any other documents your school requests to your financial aid administrator.
5. Your financial aid administrator will compare information on this worksheet and any supporting documents with the information you submitted on your application. You or your school may need to make corrections electronically or by using your SAR.

Presumably, you want to test your fax machine by sending a fax from it *and* receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Intro- You've reached the [YOUR COMPANY] Real Estate Solutions Advisory Line.
A auv one, you may press 1 to be connected with a Solutions Specialist.
All Services are 100% confidential.

Our mission, as a staff of experienced helping homeowners like you is to find the best solution for your real estate problems. No matter what you're dealing with, we're ready to help.
Foreclosure and you have to sell by the deadline, we can help.
We will help you find the best solution for your situation. If you are like many people we work with, then you want to keep more cash in your pocket.
At [YOUR COMPANY] Real Estate Solutions, helping you find the best solution for your needs is our goal.
If you prefer to get out of the situation with as much cash as possible, we have the ability to help you completely walk away from the situation. We can do it quickly, saving your credit and allowing you to have a fresh start.
You may have already been turned down by individual real estate investors. While many investors are legitimate, it can be challenging to find one who is honest and ethical. That is the opposite of what we do. No matter what is going on with your house.
*1) Can you tell me about your options?
If someone really does not get what is going on with your home it is obvious they do not have your best interest in mind.
#2 How much will it cost me?
Many investors collect large upfront fees that they keep whether they help you with your situation or not.
*3 How quickly can you close.
Many of these people will advertise that they can close the deal quickly, but make sure they can actually do what they promise.
*4 Can you stop foreclosure?
Most individual real estate investors can only help someone who is already behind in payments and in the foreclosure process.
*5 Can you work with many lenders?
Investors want to make sure that in get your loan, so usually do not take the approach of the ability to work directly with your lender to help your situation.
If you would like to hear more about finding a solution we would be happy to talk to you about your options.
When ever you decide to do about your situation, it is very important that you do it quickly. The longer you put this off, the more difficult and pricy it becomes.
If you were to leave a message, clearly state your name, and the best number to reach you at, and a brief description of your situation.

Wire transmission [edit]

Scottish inventor Alexander Bain worked on chemical-mechanical fax type devices and in 1846 was able to reproduce graphic signs in laboratory experiments. He received British patent 9745 on May 27, 1843 for his "Electric Printing Telegraph."[3] Frederick Bakewell made several improvements on Bain's design and demonstrated a telefax machine. The Pantelegraph was invented by the Italian physicist Giovanni Caselli. He introduced the first commercial telefax service between Paris and Lyon in 1865, some 11 years before the invention of the telephone.[3][4]

In 1881, English inventor Shelford Bidwell constructed the *scanning phototelegraph* that was the first telefax machine to scan any two-dimensional original, not requiring manual plotting or drawing. Around 1900, German physicist Arthur Korn invented the *Bildtelegraph*, widespread in continental Europe especially since a widely noticed transmission of a wanted-person photograph from Paris to London in 1908, used until the wider distribution of the radiofax. Its main competitors were the *Belinkjaphe* by Édouard Belin first, then since the 1930s the *Heilschreiber*, invented in 1929 by German inventor Rudolf Hell, a pioneer in mechanical image scanning and transmission.

The 1888 invention of the telautograph by Elisha Gray marked a further development in fax technology, allowing users to send signatures over long distances, thus allowing the verification of identification or ownership over long distances.[5]

On May 19, 1924, scientists of the AT&T Corporation "by a new process of transmitting pictures by electricity" sent 15 photographs by telephone from Cleveland to New York City, such photos suitable for newspaper reproduction. Previously, photographs had been sent over the radio using this process.[6]

The Western Union "Desktop" fax machine, announced in 1948, was a compact machine that fit comfortably on a desktop, using special spark printer paper.[7]

Pre-Surgery Instructions for Cataract Surgery

1week prior to your surgery:
1) perform lid scrubs with a no tears baby shampoo (i.e., Johnson's Baby Shampoo--NOT BABY OIL). A convenient method is to do the lid scrubs while bathing, put one drop of shampoo on the tip of a wet washcloth, quickly dilute the shampoo with the shower spray and scrub the base of your eyelashes for a few strokes to loosen the debris. Concentrate on scrubbing the lashes, rather than the upper or lower lids. Rinse the eyes under the shower spray, taking care to avoid injury to the eye--vigorous scrubbing is not necessary.

2) Start using Erythromycin ointment(RX provided) apply a small bead of ointment to eyelashes with your finger at bedtime.

1 Day prior to your surgery: start using your medications in the eye to be operated on. Space drops 5 minutes apart.

Lotemax ---1 drop 3 times a day.
Diclofenac---1 drop 3 times a day.
Besivance (RX Provided)---1 drop 3 times a day.

You will start back on all 3 medications the day of your surgery.

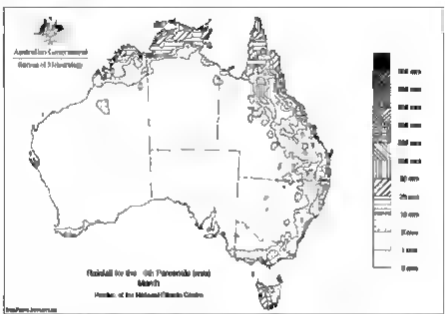
This is required ONLY if you want to run WinFax in
Fax Sharing mode



When the Fax Sharing option is enabled, you must have
the same date, time, and location settings on both the host and
the client computers. Additionally, the dial as entered location
should not be used when configuring the Fax Sharing
host, as this may incorrectly assemble phone numbers sent from
the Fax Sharing client.

When running in Fax Sharing mode, you must be running the
same language versions of your operating system on both the host
and the client computers.

When running in Fax Sharing mode, a mixture of double-byte

Frijoles Negros –Cuban Black Beans

This is a recipe that will make enough for two people with a little left over for lunch tomorrow.

Ingredients.

1 tbsp – Extra virgin Olive Oil

1/2 – Medium Onion, chopped

1/2 – Red Pepper – chopped

2 – Garlic cloves, chopped

½ tsp – Cumin, or to taste

1 – Bay Leaf

½ tsp – White Vinegar

1 tbsp – Worcestershire sauce

¼ cup – Water

½ tsp – Salt, or to taste

2 cans – 15 5oz cans Black Beans – un-drained

In a medium saucepan, heat the olive oil and sauté the onions and pepper. When the onions get clear and soften, add the garlic and cumin and let go for another minute or two.

Add the beans, bay leaf, salt and vinegar. Bring to a boil. Turn heat down, add wine and let simmer for 30 minutes or so. The beans are already cooked in the cans so you're just letting the flavour build.

1938 *The March of Dimes* is established by President Franklin D. Roosevelt

An elderly gentleman was reading his recovery-room record at the hospital where I work. He looked quite concerned at one notation.

"I know I was in a bit of a muddle, but I didn't realize I was that bad," he said to me apologetically. "I hope I didn't offend anyone."

He was greatly relieved when I explained the acronym meant "Short Of Breath" and not what he thought.

Last summer, my husband, Bill, took me camping for the first time. At every opportunity, he passed along outdoor-survival lore.

One day we got lost hiking in the deep woods. Bill tried the usual tactics to determine direction - moss on the trees (there was no moss), direction of the sun (it was an overcast day). Just as I was beginning to panic, he spotted a small cabin off in the distance. Bill pulled out his binoculars, studied the cabin, turned and led us right back to our camp.

"That was terrific," I said. "How did you do it?"

"Simple," he replied. "In this part of the country all TV satellite dishes point south."

After a lengthy quarrel, a wife said to her husband, "You know, I was a fool when I married you."

The husband replied, "Yes, dear, but I was in love and didn't notice it."

A husband read an article to his wife about how many words women use a day - 30,000 to a man's 15,000. The wife replied, "The reason has to be because we have to repeat everything to men."

The husband then turned to his wife and asked, "What?"

Test Pattern 1.0

This here be some text. We want at least one page of text included in the testing because text is usually what people transmit in a fax—like a contract page with a signature. Don't get me wrong, graphics are fine but text gives us that warm and fuzzy feeling that this testing is rooted in simulating real-world scenarios.

Graphics, on the other hand, allow us to see minute transmission flaws that are easily overlooked in a text message. The brain is a wonderful thing...and can cause us to overlook small missing details. Take, for example, the car company called KIA. Have you ever noticed that the "A" is missing the bar? It looks like a "^".

There are other examples of how the brain will fill in missing pieces of characters, or even whole words. I won't bore you with more details. The point is that text is not the best transmission to prove a fax system is working correctly.

Because the human brain is adept at recognizing patterns, the following pattern pages will easily allow one to detect even a small fax issue.

MONDAY
MOW

I believe that I cannot open a business without experience.
I believe that it takes a tremendous amount of time to start a business
I believe that it takes a lot of money to make a lot of money
I believe that I have to put this off until everything seems right.
I believe that I have to have a college or business degree to be successful.
I believe that it is difficult to find out about incorporating a business and learning its laws.
I believe that I am not smart enough or friendly enough to line up buyers and sellers

Take your time with this list Be very honest with yourself Make it as long, as short, as detailed, or as simple as it needs to be

There is now something that you need to know about these thoughts and beliefs They are put into our mind and our conscious to HELP us, not to defeat us Our world is an incredibly friendly place but most of us do not realize it We truly deserve to have all of the great things in life and our mind actually WANTS us to have them And just as we should not yank at a child that is trying to heal us, we should not interfere with our mind, which is actually trying to give us what we want.

How many times have you tried to ignore or attack these thoughts and beliefs when they have come up in the past? Where has that really ever gotten you? Instead, we are going to do something that we have never been taught to do with these so-called "negative" beliefs We will embrace them We will simply become aware of them in their entirety and embrace them. How do we do this? Simple Select one or all of the beliefs on your list, and put them in your mind's eye Now embrace them in the present moment. Feel them in your mind, in your chest, in your body Feel if your face is tense, notice your posture. Listen to the sounds in the room. Simply embrace them If you feel pain or discomfort that is okay That is there to help you too Embrace it, feel it. Do this for as long as you want and with as much attention as you can As you do this you may find yourself judging your thoughts or these ideas. Try not to judge them. Embrace them. In fact, embrace your judgment of them. Stare right in them Feel them

I cannot fully explain to you in words how you will feel while, and after, you do this Afterwards, you will see your problems differently Many times your problems will dissolve immediately and completely With practice you will get good enough at this to the point where you will encounter a brief roadblock, you will embrace it, and it will release itself all within just a few moments.

It is natural to ask after you read this What should I do then? Should I go back and try to solve or do, all of the things on the first list, one by one? Should I make affirmations? Should I eat something? Should I take a nap?

I will simply tell you to just wake up to the present moment and do what comes naturally to you You will see why when you do this. Many times you will dive directly into what

Test Fax

While we investigate whether or not there has been an error

We cannot try to collect the amount in question, or report you as delinquent on that amount.

The charge in question may remain on your Statement, and we may continue to charge you interest on that amount.

While you do not have to pay the amount in question, you are responsible for the remainder of your balance.

We can apply any unpaid amount against your credit limit.

After we finish our investigation, one of two things will happen:

If we made a mistake: You will not have to pay the amount in question or any interest or other fees related to that amount.

If we do not make a mistake: You will have to pay the amount in question, along with applicable interest and fees. We will send you a statement of the amount you owe and the date payment is due. We may then report you as delinquent.

But we do not pay the amount we think you owe. If you receive our explanation but believe your bill is wrong, you must write to us within 10 days telling us that you still refuse to pay. If you do so, we cannot report you as delinquent without also reporting that you are questioning your bill. We must tell you the name of anyone to whom we reported you as delinquent, and we must let those organizations know when the matter has been settled between us.

If we do not follow all of the rules above you do not have to pay the first $50 of the amount you question or that bill is correct.

Your Rights If You Are Dissatisfied With Your Credit Card Purchases: If you are dissatisfied with the goods or services that you have purchased with your Credit Card, and you have tried in good faith to correct the problem with the merchant, you may have the right not to pay the remaining amount due on the Purchase.

To use this right, all of the following must be true:

(1) The Purchase must have been made in your home state or within 100 miles of your current mailing address, and the Purchase price must have been more than $50.00. (Note: Neither of these are necessary if your Purchase was based on an advertisement we mailed to you, or if we own the company that sold you the item or service.)

(2) You must have used your Credit Card for the Purchase. Purchases made with Cash Advances from an ATM or with a check that accesses your Credit Account do not qualify.

(3) You must not yet have fully paid for the Purchase.

If all of the criteria above are met and you are still dissatisfied with the Purchase, contact us in writing or electronically at:

FIRST PREMIER Bank
P.O. Box 5524
Sioux Falls, SD 57117-5524
www.mypremiercredit.com

While we investigate, the same rules apply to the disputed amount as discussed above. After we finish our investigation, we will tell you our decision. At that point, if we think you owe an amount and you do not pay, we may report you as delinquent.

Your Liability for Unauthorized Use of Your Card. You will not be liable for unauthorized use of your Card or Credit Account. However, to protect your rights, you are required to notify us orally or in writing at the number or address listed on your billing statement. Associates, even kin, stolen or used without your consent. Certain exceptions apply and you may be liable for up to $50.00. To notify us of the loss, theft or possible unauthorized use of your Card, call us at 1-800-387-5621 24 hours a day.

Your Consent For Calls And/Or Text Messages To Your Cellular Phone. You select your cellular phone number from you, from another source or you provide a cellular phone cell from you, you expressly consent to accept from us, our licensee or any third party acting on our behalf:

(1) Calls or text messages for collection purposes or for other account-related purposes, used also to process your application

(2) Calls or text messages that are sent to your cellular phone number made or transmitted using any automatic telephone dialing system and/or containing prerecorded messages

You agree that you are responsible for any charges you incur as a result of incoming calls or text messages from us, from our affiliates or from any third party acting on behalf of us or our affiliates.

Information Sharing. The following describes your agreement with us with respect to informing or sharing (by requesting, obtaining or using a Credit Card from us you agree that we may release information or make any reports required by law in the amount to comply with any properly served subpoena or similar request issued by a state or federal agency or court, to share your credit performance with consumer reporting agencies and other creditors who we reasonably believe are or may be doing business with you or your Credit Account; to provide information on your Credit Account to credit bureaus, and to share information, directly in accordance with the Federal Fair Credit Reporting Act, to share information with our employees, agents or representatives performing work for the Bank or its affiliates, with your Co-Applicant or to communicate information as to our transactions or experiences with you by persons or entities related by common ownership or affiliation to the corporate control or with any third party (excluding non-affiliates).

We may also share information such as: (1) information other than our own transactions with you with persons or entities related to the Bank by common ownership or affiliation and/or (2) information on your Credit Account with certain companies to provide or offer you selected products, on Account or on Other Kinds in your request, call 1-800-987-6521 or notify us in writing at First PREMIER Bank P.O. Box 5524, Sioux Falls, SD 57117-5524. Be sure to include your name, address and Account Number. You may receive a copy of our information on your Credit Account by writing or calling us at the address or telephone number listed on your billing statement. To protect your Account, we authorize us to check your credit history. You authorize your employer, bank and any other references listed to release and/or verify information to us and our affiliates in order to determine your eligibility for the Credit Account and any renewal or future extension of credit. You ask, you will be told whether or not consumer reports on you were requested. Upon request of the Consumer Reporting Agencies, with their addresses that provided the reports. You designate an Authorized User to open your Card you understand that account information may also be reported to Consumer Reporting Agencies in the Authorized User's name.

State Disclosures.

Arkansas Residents: A married applicant may apply for a separate Credit Account As required by law you are hereby notified that a negative credit report reflecting on your credit record may be submitted to a credit reporting agency if you fail to fulfill the terms of your credit obligations. After credit approval, each applicant shall have the right to use the Credit Account(s) to the full credit limit established. Each applicant may be liable for amounts extended under the plan to any joint applicant.

Colorado Residents: Service charges not in excess of those permitted by law will be charged on the outstanding balances from time to time hereunder.

Kentucky Residents: You may pay the unpaid balance of your Credit Account in whole or in part at any time.

Maine Residents: Credit life insurance may accept in voluntary and you have the right to cancel such credit insurance at any time.

Vermont Residents: First PREMIER Bank may obtain a consumer report for any legitimate purpose in connection with your credit request, including but not limited to: (1) your intent in reviewing, modifying, renewing and collecting on your Credit Account. Upon your request, we (First PREMIER Bank) will inform you of the names and addresses of any Consumer Reporting Agencies that have furnished the reports.

Ohio Residents: The Ohio laws against discrimination require that all creditors make credit equally available to all creditworthy customers, and that Consumer Reporting Agencies maintain separate credit histories on each individual upon request. The Ohio Civil Rights Commission administers compliance with this law.

New York Residents/Wisconsin Residents The offer is not available to residents of New York or Wisconsin.

PREMIER Credit Protection®:

PREMIER Credit Protection is an optional benefit of your First PREMIER® Bank Credit Card.

PREMIER Credit Protection is not required to obtain credit or purchasing PREMIER Credit Protection will not affect the terms of your existing accounts you have with First PREMIER Bank.

The monthly fee for PREMIER Credit Protection is based on the outstanding ending monthly balance multiplied by $0.84 per $100.00. The fee is calculated on your monthly billing statement.

We will give you additional information before it is first billed or cancel without receiving a full refund of PREMIER Credit Protection fees.

Subject to the limitations and exclusions listed in the PREMIER Credit Protection Contract, including a maximum aggregate amount limitation on the benefits of $2,000, PREMIER Credit Protection provides:

- The current monthly minimum payment, as of the date the protected event began in the event of Involuntary Unemployment, Disability, Family Leave and Hospitalization
- The full account balance as of the date of your death in the event of your Loss of Life

Exclusions from Involuntary Unemployment protection include: willful misconduct; criminal acts; voluntarily resignation or retirement.

Exclusions from Disability protection include: retirement, non-pregnancy or childbirth (including caesarean section); a commission of a crime (including but not limited to use of illegal drugs).

Exclusions from Hospitalization coverage include: non-pregnancy or childbirth (including caesarean section); a commission of a crime (including but not limited to the use of illegal drugs).

Exclusions for Loss of Life protection include: criminal acts.

After 30 consecutive days of involuntary Unemployment or Family Leave and upon benefit approval, PREMIER Credit Protection will cover your monthly minimum payment as of the date the protected event began until: (1) 12 consecutive payments have been covered (2) you return to work; or (3) your account balance is $0, whichever occurs first.

After 30 consecutive days of Disability and upon benefit approval, PREMIER Credit Protection may cover your monthly minimum payment, as of the date the protected event began until: (1) 12 consecutive payments have been covered; (2) you are no longer disabled; or (3) your account balance is $0, whichever occurs first.

Diversity is a strength.

When you look closely at the United States Army, you will see that our diversity is a source of strength. Our Soldiers, Civilians, and Family Members bring to the Army many different backgrounds from across the USA—one of the most diverse nations on earth. Our collective differences help us accomplish great things.

When greatness is achieved through a diverse and versatile approach, the result is a sustainable, adaptive force with overwhelming strengths in various areas.

Importance of a Diverse Army

- We derive strength from the cultures, perspectives, skills and other attributes of our Soldier and Civilian personnel.
- A cultural mindset will be crucial to shaping the views of individuals and governments around the world as part of our global responsibilities.
- A more culturally, ethnically and linguistically diverse Army that facilitates understanding will provide a more effective force when called upon.

Look beyond the surface. Go beyond expectations.

When we allow performance, not assumptions, to drive our Soldiers and Civilians' success, it empowers them to excel and achieve things that they themselves may not have expected. This approach creates an inclusive environment, removes limitations and provides more opportunities, thus, attracting the best available talent to fill our ranks. Personnel who feel valued are inspired to serve at a higher level and want to remain in the Army. By looking beyond the surface we assemble an Army of well-rounded, culturally astute personnel – we also retain them.

A strong future.

The Army will continue to pursue an aggressive, but comprehensive strategy that assures leader commitment and accountability, manages talent across our diversity, the best available diversity training and education, and inclusive environments sustained by informed leaders. These combined efforts will keep us Army Strong well into the future.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully. It will automatically answer and spit out the test fax.

Print Quality Check

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK select (Yes) on the control panel. If gaps are visible select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.

This Brother inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

SUPINE STABILIZATION PROGRESSION

1) CHIN TUCK:
- Lie on back with head and neck supported.
- Find neutral neck and back positions.
- Tuck your chin towards your Adam's Apple.
- Hold 5 seconds.

(You may feel a stretch at the base of your skull. This is O.K.)
ALERT! CHECK NECK!!!

2) THERABAND EXERCISES: Lie on your back with your head and neck supported. (*Note*: if more comfortable, your may do these in sitting or standing)

a) Outward Rotation:
- Maintain neutral neck and back positions
- Hold theraband in hands with elbows bent 90 degrees at sides.
- Think "chin tuck" and pull hand apart.
- Hold 5 seconds.

ALERT! CHECK NECK!!

b) Diagonals:
- Maintain neutral neck and back positions
- Hold theraband in your hands over your breast bone.
- Pull hand apart diagonally across your chest.
- Hold 5 seconds.
- Repeat in the opposite direction.

ALERT! CHECK NECK!!!

Troubleshooting Steps:
Steps below help to resolve common faxing problems.

-Switch off fax machine and unplug power supply from the wall outlet.
Let fax machine remain off for 60 seconds

-Try a different phone cord between the fax machine and the Vonage device
Preferably 2nd phone cord.

-Eliminate any splitters.

-Connect fax machine directly to the Vonage device, bypassing any homewiring.

-If using and All-In-One device: temporarily disconnect device from PC

If you need further assistance using your Vonage service, we are always available to help.

Hello!

This is a sample fax file which is being sent to you as per your request via the Interpage FreeFax(sm) Service.

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxToEmail(sm) service with as-low-as per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315 2750 9AM to 5:30 PM M-F Pacific Time

E-Mail: fax-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notice: Due to the misuse of the FreeFax service, interpage will no longer receive free requests for demonstration messages. Only 1 request from a single user will be honored. You may still obtain a trial account for evaluation purposes by filling out the form at: http://www.interpage.net/fax/free-trial.html, qualifying by billing information. Also by indicating a valid e-mail address and subscribing to interpage's free "News Alert" (E-Mail) service.

2. This facility is a valuable tool for all of those sent by a visitor to interpage's web site. It is in valid your check of the number of pages sent of this fax. As this visitor may not receive a call or a fax from us, please let us know. However, if you find that you are receiving "more" or "unwanted" faxes, please call us at (510) 315-2750 and let us know. Thank you for your interest in interpage's services.

The **highlighted choices** are the ones we'd consider most important—so if you feel negative toward supplements or, at least choose these in your multi and supplements

Vitamins	Optimum
A	More than 1,250 IU twice a day is too much (unless you have an eye condition called wet macular degeneration)
B6	2 mg twice a day
B12	400 mcg twice a day (25 mcg)
C	400 mg twice a day (one number it's water-soluble, so you won't exceed doses over this day); or 50 mg twice a day if you're taking a statin drug (for example, Zocor, SYMVASTIN, Lipitor, Pravachol, or Crestor)
D3	Make sure you get the D3. 500 IU twice a day
E	400 IU twice a day (400 IU of mixed tocopherols is the form of vitamin E is from); Recipes this to 200 IU twice a day from supplements if you're taking a statin drug.
F (folate)	200 mcg twice a day (folic acid or folate, which is sometimes listed as vitamin B9)
Thiamin	12.5 mg twice a day
Riboflavin	12.5 mg twice a day
Niacin	At least 15 mg twice a day, preferably more (check with your doctor if you're taking a statin drug)
Biotin	150 mcg twice a day
Pantothenic acid	150 mg twice a day
Minerals	
Calcium	400 mg three times a day as divided doses (you cannot absorb more than 400 mg at a time so need to space out)
Magnesium	400 mg twice a day
Selenium	100 mcg twice a day
Zinc	7.5 mg twice a day
Potassium	Four fruit servings plus a serving that should do it

Additional vitamin-like substances you should get daily (once a day):

Lycopene	Ten tablespoons of tomato sauce a week (460 mcg) should do it
Lutein	A leafy green vegetable a day (410 mcg) should do it.
Quercetin	Hefty portions of onion, garlic, celery, or lemon juice in addition to the above at least once a day should do it.
Omega-3	either 1 gm of distilled fish oil or 4 walnuts, preferable 25 to 30 minutes before meals and before should or both (we like both)- or 400 mg of EPA supplement (three capsules) or 2 ounces of fatty fish a day
Cinnamon	1 half teaspoon a day
Red Pepper	As much or you want (more increase for appetite suppression) early in the day
Turmeric	As much or you twinshot at least ½ teaspoon of strong mustard or a curry dish a day

Choices you might consider (talk to your doctor about these, and all choices):

Coenzyme Q10	200 mg a day if on a statin, or hypertensive or diabetic

8.0 Measuring the pH value of a soil solution

The greatest source of error in soil pH tests comes during sample collection. An accurate solution is made from a representative sample, therefore, the care taken during sample collection is the most important step.

Collecting the sample

- Sample in a zig-zag pattern across the required area
- Take samples of soil at approximately 20 cm / 8" deep.
- Mix all collected samples together thoroughly
- Ideally allow to dry in the air or in an oven at 40 °C / 104 °F
- Weigh out 20 g / 0.7 oz of the collected soil into a 150 ml / 5 fl oz plastic sample jar

Sample preparation

- Add 100 ml / 3 fl oz of distilled or deionized water, screw lid on tightly
- Shake continuously for 5 minutes. Leave overnight and shake again the next morning.
- Allow to settle for 15 minutes after shaking and strain sample into clean measuring cup

Taking pH readings as follows:

- Remove the storage cap/dibber and insert the probe tip into the soil solution sample.
- Turn the Soil pH Pen on
- Wait for the reading displayed to stabilize to a constant value. Record the reading.

  If the Soil pH Pen turns off while taking a measurement, simply press the power button to turn the Soil pH Pen back on and continue with your measurement.
- Remove the probe from the soil solution and rinse the probe tip under fresh running water (not RO or distilled) to remove soil residue
- Place the storage cap/dibber back onto the probe after use, ensuring it contains fluoride pH Probe Storage Solution or plenty of tap water

  "IF IT DRIES ... IT DIES!". See section 4.0 Soil pH Probe Care.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. With a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Subject: **Chartered Accountant professional services**

Dear Owner of P&G Roofing & Sheet Work Inc.

My name is Sviatoslav Feshchenko I am a Chartered Accountant and would be delighted to have you as my client As a full service accounting and tax practice I offer a range of professional services suited to small and medium sized businesses including:

- Accounting (financial statement preparation (NTR) bookkeeping)
- Tax compliance (personal and corporate return preparation HST returns payroll assistance)
- Tax advisory (tax minimization strategies, new business incorporation, corporate reorganizations owner-manager remuneration planning and much much more)
- Tax dispute resolution (CRA audits, reassessments objections and appeals, unfiled returns (last 12 years) tax amnesty (voluntary disclosure) and more)
- Business acquisitions (asset vs shares analysis of tax implications, tax risk assessment)

My primary goal is to ensure you are always paying the least amount of tax while being in full compliance with tax law

I would like to extend my invitation to you for a no cost no obligation consultation to discuss your particular circumstances and offer ways I can help you For more information on the services I offer please visit my website at www.feshchenko.com or call me at 613 912-8061

I sincerely appreciate the time you took in reading this letter Please feel free to contact me with any questions you may have or if you wish to book an appointment

Sincerely

Sviatoslav Feshchenko, CPA, CA

Quick Southern Collards

Recipe courtesy Jeff Mauro

Prep Time:	15 min	Level	Serves
Inactive Prep Time:		Easy	4 servings
Cook Time:	15 min		

Ingredients

8 ounces bacon, chopped

1 red bell pepper, diced

1 to 2 bunches collard greens, washed, stems removed and chopped

1/4 cup apple cider vinegar

1 teaspoon crushed red pepper flakes

Kosher salt and fresh ground black pepper

Directions

Place the bacon in cold 12-inch skillet. Heat the pan over medium heat and cook until the bacon is crispy and the fat is rendered. Once crispy, set aside on a paper-towel-lined plate. To the leftover bacon fat, add the red pepper and cook until softened, 5 to 7 minutes.

Stack the leaves of collards and roll tightly into a cigar shape. Then chop away.

Add the collards to the pan along with the apple cider vinegar, red pepper flakes and some salt and pepper and cook until tender, but still bright green, 4 to 5 minutes. Adjust the seasoning if necessary. Toss with the reserved crispy bacon and serve.

Please call us to activate your Internet service

Eric Fasoras,

Thank you for your recent Time Warner Cable Internet order. In order to activate your Internet service you will need to call a TWC agent and provide your Cable Modem ID (MAC address). Please find instructions below.

Step 1- Purchase a TWC approved modem. Please find a list of modems tested and approved for use with TWC Internet service here.

Step 2- Connect your modem.

Step 3- Call to have your modem activated. Locate the Cable Modem ID (MAC address) for your new modem, usually found on the bottom of the modem. You will need to have this information ready when speaking to an agent. Please then call 1-888 488-1305 or chat with us online.

Thank you for choosing Time Warner Cable.

Buckwheat Zydeco

From Wikipedia, the free encyclopedia

Buckwheat Zydeco is the stage name of **Stanley Dural, Jr** (born November 14, 1947) an American accordionist and zydeco musician. He is one of the few zydeco artists to achieve mainstream success. His music group is formally billed as **Buckwheat Zydeco and His Son Partis Band**, but often they perform as merely *Buckwheat Zydeco*.

The *New York Times* says "Stanley 'Buckwheat' Dural leads one of the best bands in America. A down-home and high-powered celebration, meaty and muscular with a fine-tuned sense of dynamics — propulsive rhythms, incendiary performances."[1] *USA Today* calls him "a zydeco trailblazer".[2]

Buckwheat Zydeco has performed with a large number of famous musicians from Eric Clapton (with whom Buckwheat also recorded) and U2 to The Boston Pops. The band performed at the closing ceremonies of the 1996 Summer Olympics to a worldwide audience of three billion people. Buckwheat performed for President Clinton twice, celebrating both of his inaugurations. The band has appeared on the *Late Show with David Letterman*, *CNN*, *The Today Show*, *MTV*, *NBC News*, *CBS Morning News*, National Public Radio's *Weekend Edition*.

NDC: Coordinator Of New Political Party Cannot Even Form A Juvenile Football Club

The National Democratic Congress (NDC) has sought to discredit the formation of a new political party whose membership allegedly encompasses functionaries of the ruling party

Real Democratic Patriots Party (RDPP), an offshoot of the NDC claim they are constantly being victimized because of their support for Mr. Jerry John Rawlings. Members of the RDPP, mainly aggrieved supporters of the NDC, say they believe in the Rawlings ideology, though the Rawlingsee are not linked to the formation of the party.

The party which has its interim headquarters in the Brong Ahafo regional capital, Sunyani, has already been launched and is being coordinated by Raphael Cubagee, a former Brong Ahafo Regional executive member of the NDC.

Until his resignation from the NDC, Mr. Cubagee contested for the Sunyani East Constituency theirmanship race in 2005, and was the chairman of the committee which vetted Dormae MCE candidates in 2008. He was also a member of the committees tasked to settle the disputes between some MDCEs and party executives this year at Nkoranza North, Wenchi, Techiman and Dormaa East districts.

The National Coordinator of the newly-launched RDPP, Raphael Cubagee, who recently filed for a floating status to leave the NDC, following the ill-treatment he had been subjected to by some high profile members of the ruling party, maintains the RDPP has the support of the masses especially the rank and file of the NDC whose hopes had been shattered by the Mills' administration.

But the National Organiser of the NDC, Yaw Boateng-Gyan, has dismissed the existence of any such group and posits that Mr. Cubagee does not have the wherewithal to form such a splinter political party.

Speaking in an interview on Peacefm's "Kokrokoo" with Twenebaah Kodne (TK) sitting in for regular host Kwami Sefa Kayi, the NDC National Organiser challenged Mr. Cubagee and his group, claiming that they are not known in the NDC since they are not card-bearing members of the ruling party.

"...Cubagee cannot form a Juvenile Football Club not to even talk about forming a political party... because of his notorious character, he is living at the outskirts of Hapre and not Sunyani... If former President Rawlings wants to form a new party, he will not use Cubagee.....he is a nonentity," he asserted.

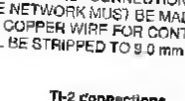
TI-2 Servicing Instructions

CAUTION: THESE SERVICING INSTRUCTIONS ARE FOR USE BY QUALIFIED SERVICE PERSONNEL ONLY TO REDUCE THE RISK OF ELECTRICAL SHOCK, DO NOT PERFORM ANY SERVICING OTHER THAN THAT CONTAINED IN THE OPERATING INSTRUCTIONS, UNLESS YOU ARE QUALIFIED TO DO SO

THIS DEVICE MUST BE INSTALLED BY QUALIFIED, TRAINED PERSONNEL. CONNECTIONS TO THE TELEPHONE NETWORK MUST BE MADE WITH #26 AWG SOLID COPPER WIRE FOR CONTINUED SAFETY WIRE SHALL BE STRIPPED TO 9.0 mm OR 0.35".

TI-2 Connections



The TI-2 utilizes two ring-type eyelet terminals. To ensure reliable connection, it is important that only a single wire be placed under each eyelet terminal. Use a small screwdriver or other tool to loosen the eyelet terminal screw and insert the wire. Then tighten the screw while keeping the wire in place. Repeat the process for the second wire.

Each of the TI-2's independent phone lines has a separate connector. This allows one to be unplugged from a telephone or computer without disrupting the other. Each line receives parallel connections for TIP and two parallel connections for RING. This allows another device to be added in parallel with the existing telephone line via the TI-2. When connecting the TI-2 in parallel with the existing telephone line, the TI-2 must be installed closest to the point where the telephone line enters the premise. Always use #26 AWG solid copper wire stripped to 0.35" inches (9mm) for continued safety.

A Cyberattack in Saudi Arabia Had a Deadly Goal. Experts Fear Another Try.

By NICOLE PERLROTH and CLIFFORD KRAUSS MARCH 15, 2018

In August, a petrochemical company with a plant in Saudi Arabia was hit by a new kind of cyberassault. The attack was not designed to simply destroy data or shut down the plant, investigators believe. It was meant to sabotage the firm's operations and trigger an explosion.

The attack was a dangerous escalation in international hacking, as faceless enemies demonstrated both the drive and the ability to inflict serious physical damage. And United States government officials, their allies and cybersecurity researchers worry that the culprits could replicate it in other countries, since thousands of industrial plants all over the world rely on the same American-engineered computer systems that were compromised.

Investigators have been tight-lipped about the August attack. They still won't identify the company or the country where it is based and have not identified the culprits.

But the attackers were sophisticated and had plenty of time and resources, an indication that they were most likely supported by a government, according to more than a dozen people, including cybersecurity experts who have looked into the attack.

lively interest in me several months before there was any possibility of our becoming personally acquainted, first, that I was destined to be unlucky in life; and secondly, that I was privileged to see ghosts and spirits, both these gifts inevitably attaching, as they believed, to all unlucky infants of either gender born towards the small hours on a Friday night.

I need say nothing here on the first head, because nothing can show better than my history whether that prediction was verified or falsified by the result. On the second branch of the question, I will only remark that, unless I am through that part of my inheritance while I was still a baby, I have not come into it yet. But I do not at all complain of having been kept out of this property; and if anybody else should be in the present enjoyment of it, he is heartily welcome to keep it.

I was born with a caul, which was advertised for sale, in the newspapers, at the low price of fifteen guineas. Whether sea-going people were short of money about that time, or were short of faith and preferred cork jackets, I don't know; all I know is, that there was but one solitary bidding, and that was from an attorney connected with the bill-broking business, who offered two pounds in cash, and the balance in sherry, but declined to be guaranteed from drowning on any higher bargain. Consequently the advertisement was withdrawn at a dead loss--for as to sherry, my poor dear mother's own sherry was in the market then--and ten years afterwards, the caul was put up in a raffle

Editorial Review of Windows 7 Firewall Control Free (32-bit version)

Want fine-grained control over the control built into Windows 7 and Windows Vista—especially the ability to block Windows connections? Good luck. Even if you manage to unearth the Internet buried deep in Windows menus and questionable, you'll be control. Windows 7 Firewall Control Free hatched the problem for you.

Windows 7 Firewall Control Free lets you monitor Windows control to block applications from making Windows connections to the Internet. It is customize the way they make those connections (Outbound filters the this one important), choose if you've been trained with a Trojan or control infected, you should notice an a Internet Downloads without your knowledge. Internet connections this take control of your PC. Some infected can also turn your PC into a spam-spewing robot, malware or email trained your knowledge.

When you run the program, Windows an application's link to reveal the Internet, a screen pops up, with the application's either the publisher and firewall information, as and its path and filename. You can then control or disable Internet or Windows connections. It has to radio, either permanently, or just the one time. If you're not sure if the program is Windows or not, go to www.processlibrary.com and do a control for the file name, the control.

Instead the Windows 7 Firewall Control, you won't its use to control how programs access the Internet in this regular. You'll have to trained rely on the Windows that the control Windows control control on is. Sure, it does Windows Vista Windows are the right ones, but if you're more comfortable making those decisions yourself you'll have the program.

Instructions and Important Information for Filling Out the Eligibility Review Form (ERV)

1. This form is for people who live in Massachusetts, are not living in or about to go into a nursing facility, and are under age 65. This form may also be used by people of any age who are parents of children under age 19, or who are adult relatives living with and taking care of children under age 19 when neither parent is living in the home, or who are disabled and work 40 or more hours a week or are currently working and have worked at least 240 hours in the six months immediately before the month of the MassHealth review. If this form is not for you, call 1-800 665-9993 (TTY: 1 888 665-9993 for people with partial or total hearing loss).
2. Please list only one family group on the form. A family group can be parents, stepparents, or adoptive parents of any age and any of their children under age 19 who are all living together. If no parents are living at home, a family group may be siblings under age 19, or children under age 19 and an adult related by blood, adoption, or marriage, or a spouse or former spouse of one of those relatives who are all living together. A family group can also be an individual or a married couple who are living together with no children under the age of 19. If more than one family group lives in your home, each family group must fill out a separate form.

If You Use Outlook E-Mail, Meet Xobni

By BRAD STONE

SAN FRANCISCO — Adam Smith was 12 when Microsoft introduced its desktop e-mail program, Outlook.

Outlook is now the most popular e-mail tool in the world, used by hundreds of millions of people. And Mr Smith, now 23, thinks that the program is so poorly suited for most people's intensive e-mail habits that he has co-founded a company, Xobni, intended to fix it.

"Using Outlook today is like taking a Volkswagen Beetle into space," Mr Smith said. "People are kind of exerting all these stresses upon it that it wasn't originally designed to withstand."

Xobni, based in San Francisco, is introducing a new tool on Monday that plugs into Outlook. Mr Smith's general complaint — one that is shared by many users of Outlook — is that the more the program is used, the slower it gets and the harder it is to search for e-mail addresses and phone numbers.

To solve these problems, Xobni ("inbox" spelled backwards and pronounced zob-nee) has produced free downloadable software that, once installed, indexes all the e-mail in Outlook and makes those messages quickly and easily searchable. The software, available at www.xobni.com, will also be sold to companies.

Other programs, like Google Desktop, perform that same basic index-and-search function. But Xobni, which its creators call an "intelligent filter," adds a few more features. When it scours the inbox, it extracts phone numbers it thinks are associated with the sender. So when a user searches for a person, Xobni presents the number in a side panel to Outlook.

The software also interprets the social relationships between people who are sending messages to each other. For example Xobni recognizes that if an executive sends a copy to someone else on each message he or she sends, it might be to an assistant or another colleague. When someone using Xobni searches for that executive in Outlook, the second person is listed as well.

Extracting these social networking features from e-mail is an enticing proposition in Silicon

There were so many times when I thought we never make it this far

But it's clear to see that we're meant to be (even when we get on each other's nerves)

We've had our ups and downs, we've even broke up

We said hurtful things to each other, something's we didn't mean, we just wanted to

Show our pain

But I finally realized that you aren't going anywhere

No matter what people think or what they may say

I realized I'm going to always be here

This love is real

Can't nobody take that from us they got to realize it's me and you

No matter how much we fight

Or claim we hate each other

This love will never go away

Our love is here to stay

Many people say we will never make it through

But they don't know how much we already been through

We're both still standing here

We may be a little weak

But if we hold on we can be strong

This photo book contains tips to help you quickly format your report and add other elements, such as a chart, diagram, or table of contents. You might be surprised how easy it is.

[illegible]

- To change the look of the text you copied, select the text you want to change, and then on the Home tab, in the Styles gallery, choose the style you want. To change the look of a picture or a diagram, choose a different style.
- You might like an photo on the cover page or somewhere else in your book. When you copy a picture, you can choose between Picture or Keep text only.
- Add more pages, if you need them. For example, when you add a chart or a diagram to your book, it automatically moves to a new page. You can also add a blank page and then add text or pictures.

[illegible]

Need to add a table of contents or a bibliography? No sweat.

ADD A TABLE OF CONTENTS

Consider it done. Simply to add a table of contents to your report, just click in the document where you want the TOC to appear. Then, on the References tab, click Table of Contents. And then click one of the Automatic options.

When you do, the TOC is created and sees you formatted using Heading 1, Heading 2, and Heading 3 styles in a consistent, coll...added look.

ADD a Bibliography

On the Refe...ences tab, click the Citation & Bib...aphy group, then choose Citation for the option to add sources and then place citations in the document.

When you've added all the citations you need for your report, on the References tab, click Bibliography to insert a formatted bibliography in your choice of styles.

And you're done. Easy work.

Yet another source of uncertainty is both the data generation and the transmission processes. For example, in a trajectory it is sometimes possible to see outliers, suddenly locating the vessel in the middle of [illegible] because of some malfunction of the vessel's system or [illegible] (harsh weather conditions are a factor here). We cannot expect to have clean data and it should be taken for granted that corrupt data streams are going to be fed to the system.

These sources of data uncertainty are more or less obvious. What is less obvious is another kind of uncertainty which might be present even in the rare case where we have complete data and no [illegible] have a predictive component for detecting possible collisions by projecting in the future vessel trajectories and determining whether these future trajectories [illegible] vessels moving in or near ports, constantly maneuvering to approach and dock or leave the [illegible] with such a high traffic density, we would simply get a deluge of false positives.

DO WE WANT TO KEEP ADDING PATTERNS TO A SYSTEM?

Within the port context, this behavior should be considered [illegible] so that a warning is produced only when there "really" is a danger given the port conditions. But imagine another scenario in which two vessels, away from any ports this time are indeed on a "collision" course. But they have actually agreed beforehand to meet (e.g., for an inspection) [illegible] another case of a false projected collision is a re[illegible]on

Pattern Refinement

One solution to the problem of [illegible] behaviors satisfying a pattern might be simply to refine the patterns in order to capture all the possible cases. However, there are two problems with this approach

First, such an ad nauseam pattern refinement might not even be feasible since we might lack the necessary knowledge especially at the early stages of system deployment.

Second, the question remains whether we want to keep adding patterns to the system for every possible case, given the performance cost this way might incur. Early detection of a behavior based on a possibly not complete pattern, could be preferable to a near perfect but delayed (and therefore possibly [illegible] especially for critical situations (this is the case of "better safe than sorry").

Military/Overseas Ballot Instructions
June 7 2016 Primary Election

The enclosed Vote by Mail Ballot has been sent to you early because our records indicate you are a military or overseas voter.

To vote your ballot, complete the arrow pointing to your choice.

When you finish voting the ballot, seal it in the postage-paid return envelope. Please be sure to **SIGN** your name, date and write your Santa Clara County residence address on the envelope before returning your ballot.

You may return your ballot by mail or fax. If you wish to fax your ballot, complete and **sign** the ***Fax Cover Sheet*** instead of the return envelope. The fax number is 1-408-293-6002.

For more information about the election or to track the status of your ballot, please visit our website: **www.sccvote.org**.

For your ballot to be counted, it MUST be returned by 8 p.m. on Election Day OR postmarked on or before Election Day and received no later than three days after Election Day.

Select Communication Settings

Select these settings to maximize how your WorkForce 320/323/325 Series receives and transmits faxes.

1. Press the Copy/Fax button.
2. Press the Menu button.
3. Press ▲ or ▼ to select **Fax Settings**, then press **OK**.

   5. Fax Settings
   Press OK.

4. Press ▲ or ▼ to select **Communication**, then press **OK**.
5. To adjust any of the following settings, press **OK**.

   - **DRD** can be used with a "Distinctive Ring Service" provided by your phone company. With this service, you can have two or more phone numbers assigned to the same line, with each number given a distinctive ring. For example, if you have a phone number for personal calls, have it ring normally (with a single ring), and a fax number, set for a double ring, select **Double** as the **DRD** setting. Then the fax system picks up only those calls with a double ring. (All is the default setting.)
   - **ECM** indicates whether you use Error Correction Mode to automatically request retransmission of fax data that is received with detected errors. (On is the default setting.)
   - **V.34** indicates the speed at which you transmit faxes. **On** is 33.6 Kbps and **Off** 14.4 Kbps.
   - **Rings to Answer** indicates the number of rings that must occur before the WorkForce 320/323/325 Series automatically receives a fax. You may want to change this setting if you have an answering machine. (4 is the default setting.)
   - **Dial Tone Detection** indicates if the unit runs **On**, if WorkForce 320/323/325 Series does automatically when it detects a dial tone. You may not be able to detect a dial tone when connected to a PBX (Private Branch Exchange) or TA (Terminal Adapter), system. In that case, turn this setting **off**.

   Press **OK** when you're done.
6. When finished, press the Menu button to return to the Fax mode screen.

Release Pressure procedure

Always follow this procedure when shutting the airless/finish paint sprayer OFF for any reason. This procedure releases pressure in the high pressure hose.

- Push the lock-off lever down to lock the sprayer trigger.
- Turn HI/OFF/FINISH switch OFF
- Turn prime/spray lever to PRIME. This releases pump pressure.

Push the lock-off lever up to unlock the sprayer trigger and point to inside wall of paint container releasing unused paint or stain back into container. This releases pressure in the hose and pistol-grip sprayer.

Setup, Priming, and Painting

- Lock the sprayer trigger
- Remove nozzle tip guard and spray tip from pistol-grip sprayer
- Place intake tube in paint container
- Set return tube into a waste container
- Turn prime/spray lever to PRIME
- Turn variable pressure control to PRIME
- Plug in the paint sprayer
- Turn HI/OFF/FINISH switch to HI
- When clean paint or stain begins to flow through return tube, turn HI/OFF/FINISH switch OFF, set return tube into paint container and clip to intake tube. Turn HI/OFF/FINISH switch to HI.
- Point DUAL ACTION pistol-grip sprayer (without guard and spray tip in place) into waste container.
- Turn prime/spray lever to SPRAY
- Unlock sprayer trigger
- Spray into waste container until all air, water and cleaning fluid is expelled and only paint or stain comes out

NOTE: When the motor stops, this indicates that the pump and hoses are under pressure. If the motor continues to run, re-prime by turning the prime/spray lever to PRIME.

- Lock the sprayer trigger
- Turn HI/OFF/FINISH switch OFF

To Paint

- Turn variable pressure control to HIGH pressure (+). Pressure can be adjusted to reach desired spray pattern and coverage

- Turn HI/OFF/FINISH switch to HI
- Turn prime/spray lever to SPRAY
- Turn variable pressure control to HIGH pressure (+). Pressure can be adjusted to reach desired spray pattern and coverage
- Unlock the sprayer trigger. Begin spraying

NOTE: If spray tip becomes clogged, lock the sprayer trigger, turn 180° unlock sprayer trigger and spray into waste container to clear clog. Return spray tip to spray position and continue spraying.

- Lock the sprayer trigger and follow **Release Pressure Procedure** when finished or stopping for any reason.

Dear Friend,

Thank you for your order!

We work hard to make sure your order is processed correctly & packed carefully. However, we ask that you check your order upon arrival, and let us know if anything is amiss.

We are a small business & take pride in our customer service. If you have any problems or have questions about our products let us know, & we'll be glad to help in anyway we can. We value your input and use it to better meet your needs, so we would be glad to hear from you.

We want you to be satisfied with every item you receive from us. We understand that from time to time you may need to return an item. Please let us know if you would like a refund or exchange. We ask that non-defective items being returned are kept in "like new condition". Please include a note with your name, address, and phone number, or a copy of your invoice. Please keep in mind that shipping is not refundable on non defective items. If your item is defective or damaged please call us for instructions.

We reuse boxes and packing material, as well as using paper shreddings whenever possible. While some of our boxes may not look as good as new ones, they allow us to reduce operating costs, and keep our shipping prices lower. Reusing packaging also helps keep packaging out of land fills and saves energy used in recycling. We encourage you to reuse or recycle packing material as well.

We do very little advertising. This is one way we keep our prices low. We rely on word of mouth for most of our sales. If you are happy with us, we would appreciate you telling others about us!

We look forward to being of service to you now, and for many years to come. Thanks again for your order & God Bless

ARTIFACT ABSTRACT (FIG D.)

A magnifying glass originally found inside the top right drawer of the roll top desk. We are of the current belief that this item was simply inherited by Howell when he purchased the mansion, Howell wasn't hard of seeing, and he certainly didn't do any work that would require the use of the magnifying glass. Assuming the magnifying glass was owned by the previous tenant, Reginald Hawling, it would make sense due to his extensive notes regarding research with the Malthus Crystal. The magnifying glass also appears to have very small colorful marks along the edge of one side of the glass, presumably created by Hawling for his own purposes. While rather mundane object was utilized during early versions of the public tests of The Study, hosted by Streeper Industries, but taken out of later iterations of the test in favor of a different puzzle taking its place. It currently resides within the office of our Downtown location until we find further use of the object. Xad catalogue entry.

Figure D' Magnifying Glass

ARTIFACT ABSTRACT (FIG E.)

Originally stocked on ten of the roll top desk. These glasses were part of a set which was assumed to be simply a display. However, after several talks with Howell regarding sera silveraisin, it appears these glasses were purchased with an intention to present them to her family in order to gain more favor with them. Howell, being very meticulous with his purchases, was certain that each recipient would be able to see a little bit of themselves in the gift. The other two glasses which were originally part of this set, are meant for both Harry and Christi respectively, were broken after patrons were permitted to use these items as part of a puzzle for The Study. Quite obviously we have moved the remaining glasses to our offices in order to prevent any more damage to them. Xad catalogue entry.

Hail Mary

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

"Hail Mary, full of grace. The Lord is with thee Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen " (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth When you are down to nothing, God is up to something. This has been traveling since 5/13/07'

Using Fax

Fax provides you with complete fax facilities from your computer. You can configure fax settings, send and receive faxes, track and monitor fax activity, and access archived faxes. Using Fax, you can choose to send and receive faxes with a local fax device attached to your computer, or with a remote fax device connected to fax resources located on a network.

Fax is not installed by default during Windows Setup.

To install the Fax component:

1. Open Add or Remove Programs in Control Panel.
2. Click **Add/Remove Windows Components**.
3. In the Windows Components Wizard, select the **Fax Services check box**, and then follow the instructions on your screen.

Notes

- To open Fax after installation, click **Start**, point to **All Programs**, point to **Accessories**, point to **Communications**, and then click **Fax Console**.
- For more information on using Fax, click **Help** in Fax Console.

Dear Patient/Significant Other:

In order to assist you and your family to the Inpatient Hospice Unit, please be aware of the following:

- Visiting hours are 24 hours/7 days per week.
- Visitors in patient rooms will be limited to 8 – 10 visitors due to safety concerns. Extra visitors should wait for their turn to visit in the patient lounge at the end of the hallway.
- Food will not be provided on the unit for family/significant others. The facility's cafeteria is located on the second floor and is open from 7:00 am until 7:00 pm. If the cafeteria is closed there are vending machines you can access. We also have a variety of take out menus located at the nursing station for the family to utilize at their convenience.
- Feel free to bring in any special food for the patient. If foods need refrigeration, please give it to a staff member who will also receive it when needed.
- Coffee and tea is available in assigned areas for your convenience.
- Any patient snacks will be provided by our Unit.
- The visitor restrooms are on the second floor of the facility.

The staff on the unit will assist you and your significant others with any concerns.

Sincerely,

Sarah A. Liptak RN, MSN CALA

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855 330-1239 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero (free site here you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device bypassing any home wiring.
- If using an All-In-One device, temporarily disconnect device from PC.

Hello huckleberryhound

- Are you able to work on your computer normally by passing the error?
- Do you remember making any changes to the computer (Hardware or Software) prior to having this issue?

I suggest that you run a System File Checker tool on your computer

Running the System File Checker

1. Click Start, click All Programs, click Accessories, right-click Command Prompt, and select Run as Administrator.
2. Click Continue or supply Administrator credentials if prompted.
3. In the Command Prompt window type the following, and press Enter:

sfc /scannow

4. You should see the following on screen messages

Beginning the system scan. This process will take some time.
Beginning verification phase of system scan.
Verification 8% complete.
5. Once the scan has completed you will receive an onscreen message resembling one of the following

Found no integrity violations.

Found corruption but repaired it.

Found corruption that it could not repair.

You can check out this article that will give you information on How to analyze the log file entries that the Microsoft Windows Resource Checker (SFC.exe) program generates in Windows Vista"
http://support.microsoft.com/kb/928228

Alternatively you can post back the error if you have difficulties in analyzing the error

Thanks,
Irfan M. Microsoft Answers Support Engineer. Visit our Microsoft Answers Feedback Forum and let us know what you think.

Going Out

A couple was going out for the evening. They got ready - all dressed up, cat put out, etc. The taxi arrived and, as the couple walked out of their home, the cat shot back into the house. Not wanting their often rowdy cat to have free run of the house while they were out, the husband went back upstairs to chase the cat out. The wife, not wanting it known that the house would be empty, explained to the taxi driver, "He's just going upstairs to say goodbye to my mother." A few minutes later, the husband comes out of the house, gets into the cab, and says, "Sorry I took so long. Stupid old thing was hiding under the bed and I had to poke her with a coat hanger to get her to come out!"

BOXERS (Boxer Dogs)
RULE

©2015 "It's aRave!" Productions Ltd

Mine eyes have seen the glory of the
coming of the Lord
He is trampling out the vintage where the
grapes of wrath are stored
He hath loosed the fateful lightning of His
terrible swift sword
His truth is marching on

(Chorus)
Glory, Glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
His truth is marching on

I have seen Him in the watch-fires of a
hundred circling camps,
They have builded Him an altar in the
evening dews and damps
I can read His righteous sentence in the
dim and flaring lamps
His day is marching on.

(Chorus)
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
His day is marching on

I have read a fiery gospel writ in burnished
rows of steel
"As ye deal with my contemners, so with
you my grace shall deal";
Let the Hero, born of woman, crush the
serpent with his heel
Since God is marching on.

(Chorus)
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Since God is marching on.

He has sounded forth the trumpet that
shall never call retreat
He is sifting out the hearts of men before
His judgment-seat.
Oh, be swift, my soul, to answer Him! Be
jubilant, my feet!
Our God is marching on

(Chorus)

Glory, glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Our God is marching on

In the beauty of the lilies[14] Christ was
born across the sea,
With a glory in His bosom that transfigures
you and me
As He died to make men holy, let us die[15]
to make men free.[16]
While God is marching on

(Chorus)
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
While God is marching on

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will detail you in testing your HP FaxAshure using the HP Fax Test Service.

Print this document for easy reference by clicking the document software link in the upper right corner of this page.

Test page fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is set Caller ID (provided by your telephone company prior to attempting to send and receive a fax. Pressing *69 before dialing the fax test number will provide the caller ID (phone number in most areas. After phone capability has been set, proceed your fax by inputting a fax machine's voice mail, call blocking, or call privacy software.

NOTE: Prior to any troubleshooting or fax tests, it is good practice to visit the Automatic Reports option to ensure it is set before attempting a fax. This way, even if the send fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in software phone etc different products - consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to 1-888-HPFAXME (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a report fax to you within five minutes confirming that we received your fax. This service lists your fax' high speed and number a fax tells your fax software.

If you do not receive a report fax within 5-7 minutes, there may be a problem with the setup of your faxing software through the software that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number you set in the software is not the same that the number the number of the phone line connected to the fax machine. Ensure that you are using the full 10-digit telephone number of the fax machine, including the area code.

Top Ten List of Rules For Your Refinished Bathtub

Reglazing Do's & Don'ts. How to care for your newly reglazed bathtub or reglazed tile.

DO NOT use the surface for the specified number of days or hours indicated by the refinisher who completed the job. Usually 24 hours

DO NOT lay soap, sponges, cloths, bottles or any objects on the finish at any time! Purchase a shower rack instead

DO NOT let a leaky faucet go unrepaired!

DO NOT use abrasive cleansers. No 9-0-9 Paste. No Comet. No Soft Scrub, no razors. NO ABRASIVES AT ALL! Tub cleans easy with spray cleaner and a soft sponge.

Here are some good cleansers to use:
Tilex – Lysol Tile Cleaner. Mr. Clean. Fantastic. NO POWDERS NO ABRASIVES, just a soft sponge

DO NOT use bath mats with suctions underneath. They may pull at finish and trap moisture.

DO NOT pick surface dust off with your finger. Any surface dust will likely dissipate in 3-4 weeks with normal cleaning and usage. Waxing also helps

The best way to keep your tub clean is to wipe it down with a towel after each use. You don't have to wipe it dry.

Maintain caulking around the tub.

~~Wax tub once every 4 months with a urethane polish. (Tilex Wax) Only you should apply wax to the tub after it has been refinished.~~

~~Caution~~

MORE DO's & DON'Ts

use bathtub or other glazed surface to clean brushes or any painting related chemicals or materials. Keep Harsh chemicals away from tub. Don't clean or store sharp or abrasive items on surface.

let workers stand in a reglazed tub with rock shoes on. Have them remove shoes & put a soft towel down.

put or store any items in a tub or finished surface that might damage or cut the surface.

Does anyone know how much fax is still used?

Just bought two new all in one machines for the office

They fax, print, copy and scan all in one

I am the boss so I can play all I want ha ha!

Haven't really needed to use fax yet, but seems it would be useful!

Hi Donald

Please try sending outbound faxes from a spec for MFD to faxtex.net (1-888-877-1655) then send the same page to one of the affected MFD's. We need to check if inbound, outbound, or all fax functions are impacted.

Thank you

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts, and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Wireless Security Setup

Please keep for your records

Your new Wireless DSL gateway will enable you to take full advantage of some of the newest technologies available today. It is simple to use the wireless networking features built into your new Wireless DSL Gateway.

To connect your computing devices to the Wireless Gateway you will need to refer to information located on the bottom of the Wireless Gateway.

Copy the WiFi Protected Access - (WPA2) KEY and Enhanced Service Set Identifier (ESSID) from the sticker on the bottom of the gateway. (MAC ID is not required for wireless setting). The Wireless Gateway uses WPA2 encryption by default. To use the default setting your network PC must be configured for WPA2 during setup.

An Irish Family Tradition

Paddy had long heard the stories of an amazing family tradition.

It seems that his father, grandfather and great-grandfather had all been able to walk on water on their 18th birthday. On that special day, they'd each walked across the lake to the pub on the far side for their first legal drink.

So, when Paddy's 18th birthday came 'round, he and his pal, Mick, took a boat out to the middle of the lake. Paddy stepped out of the boat and nearly drowned! Mick barely managed to pull him to safety.

How about a color wheel? Teaching what the addition of black or white to a color what happens. There are some great books for kids about artists. Then your can talk about why did the artist like to paint trees and the other paint people. There are great books on shells and rock. you progress into gemstone and minerals, sealife. ..store bun with color by gluing pieces of tissue paper over each other in different colors.ate watered down pictures. and you can teach her color mixing this way also. teach people drawing by breaking a person down in shapes head is a circle a triangle is a dress rectangles are legs....small if you want we have done alot of stuff It s alot of fun just keep expanding on things if the interest is there!

How and when do you know that your baby is brilliant?

Everyone is always telling me that my nine old is so-o advanced He's my first so I don t have any other children to compare him to

Will you please give me some examples of what your babies were doing at 4 months?

Thank you,
Suzie

Subj: Re:How do you know?? 95-06-20 21:48:31 EDT
From: Jmh1961

Our caregivers at the day care we took our son to when he was 7 weeks old began telling us from that time that he was going to be a very smart kid He a 3 now, so it's a little hard to remember what exactly he was doing, but we too had nothing to compare to and asked the caregivers why they thought that. They said he was extremely alert and seemed to always be very aware and interested in what was going on around him. My son also happens to be extremely coordinated for his age (hitting a pitched baseball at 2 years old!) and I remember him batting and making contact with toys hung from the swing, etc. at about 2 months. I don t know if this has any connection to being intellectually gifted or not Also, he was holding his own bottle at about 5-6 months. Unless your child is very brilliant, I can t imagine what else a 4 month old might be capable of! Also, I started reading to my son at about 4 months old and right away he displayed interest in pictures and books.

Fax Test

Thanks for Today

Hey, don't know if this thread is still active but here's what you want to do. You want to create a login hook (if you don't know what it is Google it! There's ton of info out there about it including a gui called xHook) which is a shell script that run at login. The script itself will look something like this

```
#!/bin/bash

mkdir /Volumes/<Share Name>
/sbin/mount -t smb smb://username:password@172.0.0.0/<Share Name> /Volumes/<Share Name>
```

This will mount the share with the given user name and password (for more information on the mount command type 'man mount' in the command line) at the mount point '/Volumes/<Share Name>' (which can actually be anywhere you want but I like to keep to conventions). Note, you probably want to set user name to 'guest' as there is no (thank god) variable floating around the operating system that contains the users password.
Also note, you have to give the full "/sbin/" address of ment, the only commands you can use in login scripts without giving their full path name are the ones in the "/bin" folder
Okay, so save this file as something descriptive (like manfoldar.sh) and save it somewhere universal (i like /Library/Scripts/) when you're saving it, make sure it's in plain text format (so if you're using TextEdit to create it you'll have to go "Format >Make Plain Text") change the owner to 'root' and the make sure root has full access (in particular execute privileges)

(in command line type)

```
sudo chown root <Name Of File>
sudo chmod 700 <Name Of File>
```

Now we'll bind the script to the log in:

(in command line type)

```
sudo defaults write com.apple.loginwindow LoginHook /path/to/script/<Name Of Script>
```

And now, as long as you've done everything correctly, you should be golden. Restart and try logging in as a user (any user at this point. If you want to make the script more advanced and check if the user is local or not there are many good ways that can be found in other peoples scripts (in particular analyzing the Network Home Redirector script is fun and rewarding) but that is beyond the scope of what I'm trying to demonstrate here) and see if everything works. If not keep tweaking the script until its happy.

Finally I want to address some of the issues raised in the other posts:
The Applescript option is overkill in my experience (when OS X mounts a remote volume it does all kinds of background error checking and what not that I've found slow things down significantly) and the login items in the users preferences are very hard to maintain with a large user base. If you do get something with

Since your [illegible] we suggest a modular layout. This concept emphasizes space conservation and yet [illegible] space for a modest, professional atmosphere.

Enclosed are two floor plans. The first one will allow you to keep your present furniture. The second was designed with the independent task and new space-saving models be used. Notice that the latter will provide for more spacious accommodations and/or room for additional personnel. A copy of the specifications sheets on the items.

LifeDrive

From Wikipedia, the free encyclopedia

The **LifeDrive** was a Palm OS-based handheld personal digital assistant device that was produced by PalmOne, a former incarnation of Palm, Inc. The device was PalmOne's first and only foray into the "Mobile Manager" device category. As its name suggests, Palm intended the LifeDrive to be capable of providing all the capabilities and data storage space that a user could possibly need during the course of the day, including contacts, calendar, music, images, video, and applications. At the time of release, the 4-gigabyte capacity that was chosen for this task could not be achieved using the flash memory used by most PDAs, while keeping the cost of the device low enough for consumer purchase. For this reason, a 4 GB microdrive hard disk drive was selected for the task. It featured a separate data partition that could be used as a portable disk drive. The LifeDrive featured Bluetooth and Wi-Fi connectivity, the first Palm handheld to feature both. The device came pre-loaded with eReader, Documents To Go, and WiFile software.

The hard disk used in the LifeDrive was selected by Palm for its fast spinup speed, but delays in application launching were inevitably longer than with flash-based handhelds. Many speed concerns were addressed with a user-applicable ROM update (https://web.archive.org/web/20080105175531/http://www.palm.com/us/support/downloads/lifedrive/lifedrive_update.html#expect), which was released by Palm in December 2005. One of the first troubles for the LifeDrive was when it was taken off of United Kingdom shelves because the device fell short of EU regulations on the use of hazardous materials.[1] Finally, due to its high price, slower performance than other

Installation Instructions

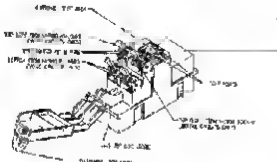

Figure 1

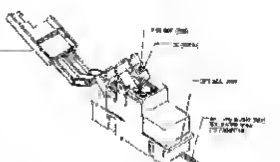

Figure 2

Basic Operation

The TII 96 Series ADSL POTS Splitter Module provides a convenient means of connecting between customer premises and central office equipment. The Splitter Module is equipped with a modular connector (see Figure 3). The customer can order the ADSL line from a provider, telephone line with wire pair to connect it to the central office. With the connector on the customer premises equipment (such DSL and POTS service) from the central office.

Installing ADSL POTS Splitter Module

1. Remove the Splitter Module from plastic bag and inspect it for damaged caused while in shipping. Splitter Module.
2. Take the Splitter Module with the cover plate toward right.
3. Locate the power cable edge under the designated tan adhesive cable.
4. Engage the right and bottom tabs the cable (See Figure 3)
5. Push the left side and down, until the latch snaps closed.

Splitter Module Wiring

Three telephone wires (POTS) and one DSL line can be connected to a single Splitter Module. The end user has the option of using a 4 conductor line or the customer may supply their own (Figure 1).

1. When installing the four pair of conductor telephone wires, always begin with the bottom terminating position (see Figure 1).
2. Make sure wire termination times where to be terminated to Splitter Module.

   Caution: Do not use the pair of gel-filled wires. Use a RJ-11 plug the DSL connector and pull gently to confirm any damage connections.
3. Obtain a modular telephone (or jumper) wire with RJ11 plug.
4. Insert red line wires TIP (CRED) & RING (CRED) wires from splitter DSL modem protective face protection and connect to the modem for further details.
5. Open customer security cover on the Splitter Module.
6. Split the Splitter Module to splitters to the open position as shown (see Figure 1).
   Place a new ground cable against security cover.
7. Begin wiring from the bottom and center.
8. Hold the customer wires telephone wires between thumb and index fingers (approx 1/8" removable between wires).

   Note: Wires will need be adjusted to the correspondent wires. Green wire to the "T" (GRE) stacked wire guide and the red wire to the "R" (RED) stacked wire guide.
9. Insert wires into the guides so that exact wire ends have between end.
10. While holding wires in with guides, terminate modem to the guide (do not remove all the wire).
11. Terminate additional white pairs to bottom slots and upper left wires as required.
12. To remove the DSL customer wire pair or upper right, locate only.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax received using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone line does not Caller ID attached by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the fax line number will turn off the Caller ID feature for that call. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to *Every Error* before attempting a test fax. This way, even if the send fax fails an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, but most the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-866-fxtest4me** (1-866-473-3863).
2. When your fax is received by the HP Test Fax System, we will generate a return fax to you within five minutes confirming that we received your fax. This confirm that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes there may be a problem with the setup of your fax machine. Consult the user manual for this same with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax machine lacks the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of the page.

Introduction

Mary, Joseph Jesus and Nazareth

©Nick Fitz

Question: I have been given to find out something about Mary the mother of Jesus and Joseph her husband. The only thing I can find out about Mary comes from Matthew and Joseph in Matthew 1.18-16, which genealogy of Jesus Christ is given. Can you help me find anything else concerning their parents or where they are from?

Response: Many myths and legends have grown up around Mary and Joseph, but the vast majority of these are of relatively late origin and are not to be found in the earliest and most reliable sources. There is, for example, the "Gospel of Mary" and a medieval work on the birth of Mary, as well as many other apocryphal works about the Virgin Mary and Christ which contain details about her life and ancestors. All of these, however, are of doubtful authenticity and cannot be relied upon as historical sources.

The Bible, however, does provide us with information about Mary and Joseph, although it is not as much as we would like. Mary is mentioned by name in the New Testament in the genealogies given in Matthew 1 and Luke 3, and in the narratives of the birth of Jesus in Matthew 1 and Luke 1 and 2. She is also mentioned briefly in the narratives of Jesus' ministry in Matthew 12, Mark 3, Luke 8 and John 2, and at the crucifixion in Matthew 27, Mark 15, Luke 23 and John 19. She is also mentioned briefly in the book of Acts 1 and 2. Joseph is mentioned by name in the genealogies in Matthew 1 and Luke 3, and in the narratives of the birth of Jesus in Matthew 1 and Luke 1 and 2. He is also mentioned briefly in the narratives of Jesus' ministry in Matthew 13, Mark 6, Luke 4 and John 6. He is not mentioned in the crucifixion narratives or in the book of Acts.

The Bible does not provide us with any information about Mary's parents or her birthplace. The Gospel of Luke states that Mary was a virgin when she conceived Jesus by the Holy Spirit (Luke 1:26-38). The Gospel of Matthew states that Joseph was a descendant of King David (Matthew 1:16). The Gospel of Luke states that Joseph was a descendant of King David through his father, Heli (Luke 3:23-38). The Gospel of Matthew states that Joseph was a descendant of King David through his father, Jacob (Matthew 1:16). The Gospel of Luke states that Joseph was a descendant of King David through his father, Heli (Luke 3:23-38). The Gospel of Matthew states that Joseph was a descendant of King David through his father, Jacob (Matthew 1:16).

   d. Remove batteries if product is not to be played with for a long time.
   e. Do not short-circuit the supply terminals
   f RECHARGEABLE BATTERIES- Do not mix these with any other types of batteries. Always remove from the product before recharging Recharge batteries under adult supervision. DO NOT RECHARGE OTHER TYPES OF BATTERIES.
2. Should this product cause, or be affected by local electrical interference, move it away from other electrical equipment. Reset (switching off and back on again or removing and re-inserting batteries) if necessary.

FCC STATEMENT
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Test your fax machine without bothering friends
By Adam
Created Oct 16 2006 - 12:27pm

[1] while trying to see if a fax machine was working correctly. It is always tough testing a fax because you have to have a friend who is home, with a fax, and willing to help. Thanks to a commenter, [2]

This site lets you enter a fax number and, in a few minutes, you will receive a test fax.

Directions to High School Official: If necessary, this page and complete the form for individual students for whom payment of the admission application fee will be a hardship.

Directions to Student: Send this completed form along with your college application to the institutions in which you wish to apply. Keep in mind that individual institutions may consider the request but are not obligated to waive or defer payment.

TO: Director of Admission

_____ [printed name of college/university]

RE: _____ [printed name of student]

High School Official's Statement: Please consider waiving or deferring payment of the college admission application fee for the student named above. This student has applied for a waiver of the ACT test fee on the basis of one or more of the indicators of economic need accepted by ACT. Based on my knowledge of the student's circumstances, I believe that payment of the college admission application fee would be a hardship.

Busy hour call attempts

Description

The chart below plots the busy hour call attempts (BHCA) for each 1 day interval. BHCA is represented as a summation of calls completed, calls rejected and other failures during the busy hour as measured by calls attempted. If multiple BSCs are included, then the aggregated to determine a combined busy hour. Since the busy hour is calculated daily, it is therefore not possible to make assessments other than daily

the time you have until retirement, the amount of risk you're willing to take, whether you have other sources of retirement income, and any special needs you or your dependents have.

The accompanying sample allocation mixes provide you with an idea of how different types of investors might allocate their contributions at different stages in their lives. Of course, these allocations are only examples. The proper asset allocation for your situation may differ.

Changing Your Investments as You Change

As you weigh risk and return, keep in mind that your ability to accept risk will probably change as the years pass. Younger people who won't retire for a long time often are able to accept more investment risks, since they have many years to make up any short-term investment losses that might occur. As a result, younger people might consider putting most of their retirement plan money in stock funds.

As retirement gets closer many people have less tolerance for risk. They tend to switch some of their stock investments to fixed income and short-term funds to add more stability to their accounts. Keeping a healthy portion of their accounts in stock funds allows them to retain a moderate amount of growth potential.

When retirement is just around the corner the ability to accept risk often takes another drop. Protecting and preserving principal become very important. Many people place even more of their plan account money into fixed income and short-term funds. But keeping some money in stock funds can be a good idea, since inflation still will have an effect on your retirement money.

Remember: Your plan investments can change as your needs change. On the other hand, don't move your money around too often. You want to give your investments time to prove their worth. And avoid trying to "time" the markets. Some people jump in and out of the investment markets in reaction to the latest financial news. But even professional investors find it hard to figure out exactly when to buy low and sell high.

However, don't ignore your investments, either. At least annually, and perhaps more often, review your investment mix to ensure it continues to reflect your investment goals. You may, for example, want to rebalance your investment mix if one type of investment or another has done especially well — or poorly. You may have to reallocate your money among your fund investments to return your portfolio to your desired mix.

Rebalancing Your Plan Investments

Alan allocates his retirement plan investments among three funds: 30% in a stock fund, 30% in a fixed income fund, and 20% in a money market fund.

Over the past year the stock and fixed income funds performed very well so that his plan money is now divided 60% in the stock fund, 35% in the fixed income fund, and 7% in the money market fund.

Alan may want to transfer some money from the stock and fixed income funds to the money market fund to maintain his desired allocation mix.

The generic life cycle structure generally displays the following characteristics:

- Cost and staffing levels are low at the start, peak as the work is carried out, and drop rapidly as the project draws to a close. The dashed line in Figure 2-1 illustrates the typical pattern.
- Stakeholder influences, risk, and uncertainty (as illustrated in Figure 2-2) are greatest at the start of the project. These factors decrease over the life of the project.
- Ability to influence the final characteristics of the project's product, without significantly impacting cost, is highest at the start of the project and decreases as the project progresses toward completion. Figure 2-2 illustrates the idea that the cost of changes and correcting errors typically increases substantially as the project approaches completion.

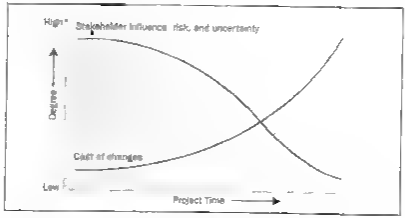

Figure 2-2. Impact of Variable Based on Project Time

Within the context of the generic life cycle structure, a project manager may determine the need for more effective control over certain deliverables. Large and complex projects in particular may require this additional level of control. In such instances, the work carried out to complete the project's objective may benefit from being formally divided into phases.

Check that the dotted lines formed, the four color blocks are all visible with no gaps. If OK, select (Yes) on the correct panel. If gaps are visible select (No) on the machine panel to start the cleaning process and follow the prompts on the LCD.

This Brother inkjet machine has been firstly tested to provide excellent, accurate and long lasting printed pages when using Genuine Brother Inaobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Inaobella(TM) inks when it is time for you to replace the ink cartridge(s).

Squid and Active Directory authentication.

Posted by admin on February 11, 2009 under Active Directory, Linux, Proxy | Be the First to Comment

Overview

I've recently setup Active Directory authentication via Squid proxy for my new workplace test environment. Essentially people were abusing the internet (looking up xxx rated sites etc) whilst at work. So it was decided to install a proxy to watch and moderate user access. Just as an aside note, proxies don t tell you about ALL the traffic going through your network/proxy, for this you need NTOP_ a packet sniffer with reporting tools. I'll attempt to explain how I setup the proxy with Active Directory authentication and explain why it works, so that you can do it too

If you don't already know, Squid is a caching server that runs on both Linux and Windows, in my case it will be running on Linux. All this means is that Squid takes a normal users request for a

I propose to change the system so that when density card output is requested, blocked dens[illegible] are punched out. In the normal case these would simply be the average densities. If the test code calls for E.N.D. conversion, it would be the E.N.D. densities that are punched out. If the test breaks down, e.g. because of purge check failure, we would get cards punched out for individual wells, since individuals are plotted in that case.

I would appreciate your comments on this proposal by January 2, 1971.

Golgi Apparatus

Price: $29.99

Sometimes, it can be hard moving all the nutrients you need throughout your cell to have it perform all of it's everyday tasks. The Golgi Apparatus can fix that! This large organelle can package and ship anything you need to move throughout the cell. Whether it be nutrients, other small organelles, or even waste, if you got it, it will ship it!

SIMPLE IRA Information

If an amount is paid from a SIMPLE IRA during the two year period beginning when you first participated in a SIMPLE plan, the amount is subject to an additional tax of 25% unless an exception applies. After the two year period, an amount is paid from a SIMPLE IRA directly to the trustee of an IRA that is not a SIMPLE IRA, the payment is neither a tax-free rollover to another [illegible] nor a [illegible] contribution. [illegible]

Withholding Notice Information (Form W-4P/OMB. No. 1545-0415)

Basic Information About Withholding from Pension

Generally, there is income tax withholding, applied to payments made from pension, profit sharing, stock bonus, annuity and certain deferred compensation plans, IRAs, and commercial annuities.

Purpose of Form W-4P

[illegible] You can use Form W-4P or a substitute form, such as that contained on this form, furnished by the Custodian, to instruct your Custodian not to withhold any tax from your IRA payments (or to increase or decrease the amount withheld).

Nonperiodic Payments

Payments from IRAs that are payable upon demand are treated as nonperiodic payments for Federal income tax purposes. Generally, nonperiodic payments are [illegible]

You can elect to have no income tax withheld from a nonperiodic payment (IRA payment) by filing Form W-4P or a substitute form with the Custodian and checking the appropriate box in Section 5. Your election will remain in effect for [illegible]

For more information, please see Publication 505, Tax Withholding and Estimated Tax, available from most IRS offices.

Caution: Remember that there are penalties for not paying enough tax during the year. Although either withholding or [illegible] may be able to avoid quarterly estimated tax payments by having enough tax withheld from your IRA using Form W-4P or a substitute form.

Revoking the Exemption from Withholding

[illegible] you can revoke that election by [illegible] Form W-4P with the Custodian and check the appropriate box on that form.

Statement of Income Tax Withheld from your Roth IRA

You will receive a [illegible] from your Custodian showing [illegible] Federal income tax withheld during the year.

How Can I Test My Fax Machine?

If you bought a new fax machine, and you'd like to verify that it works properly, there are a couple of ways. How can you test?

The most reliable way to test your fax machine is by sending a fax to another machine. Sending a fax with the machine is the only way to be sure that the machine is working properly.

To test the send functionality of your fax machine, send a one-page test fax to 1-855-329-2329 (toll-free number in the United States). When you call this number, you will hear a recording that says, "Thank you for calling the fax test number. Please wait for the tone, and then send your fax." After the tone, you will hear a series of beeps. Press the "Start" button on the fax machine. When the machine is finished sending the fax, you will hear a confirmation tone. If you do not hear a confirmation tone, you may have a problem with your fax machine.

To test the receive functionality of your fax machine, you will need to borrow a friend's fax machine. Have your friend send a fax to your fax machine. If the fax machine is working properly, you will hear the phone ring, and then you will hear the fax machine begin to receive the fax. The fax will then automatically print out on your fax machine.

You're a mean one, Mr Grinch
You really are a heel,
You're as cuddly as a cactus, you're as charming as an eel, Mr Grinch,
You're a bad banana with a greasy black peel!

You're a monster, Mr Grinch,
Your heart's an empty hole,
Your brain is full of spiders, you have garlic in your soul, Mr Grinch,
I wouldn't touch you with a thirty-nine-and-a-half foot pole!

You're a foul one, Mr Grinch,
You have termites in your smile,
You have all the tender sweetness of a seasick crocodile, Mr Grinch,
Given a choice between the two of you I'd take the seasick crocodile!

You're a rotter, Mr Grinch,
You're the king of sinful sots,
Your heart's a dead tomato splotched with moldy purple spots, Mr Grinch,
You're a three decker sauerkraut and toadstool sandwich with arsenic sauce!

You nauseate me, Mr Grinch,
With a nauseous super "nause",
You're a crooked dirty jockey and you drive a crooked hoss, Mr Grinch,
Your soul is an appalling dump heap overflowing with the most disgraceful
Assortment of rubbish imaginable mangled up in tangled up knots!

You're a foul one, Mr Grinch,
You're a nasty nasty skunk,
Your heart is full of unwashed socks, your soul is full of gunk, Mr Grinch
The three words that best describe you are as follows, and I quote,
"Stink, stank, stunk"!

NHPUC Approval

We are pleased to announce that the NH Public Utilities Commission has approved our summer Energy Service Rates. These new rates, which will be in effect from May 2015 through October 31, 2015, will mean a $4/month decrease in electric bills for the average residential customer. For current and previous rates please visit our rates page.

About the Energy Service Charge

The Energy Service charge represents the market price that we pay for the electricity we deliver to homes and businesses. Liberty Utilities does not generate electricity. We purchase it from energy wholesalers who are not regulated, and pass that cost on to our customers. We do not profit from the Energy Service charge.

Prices Expected to Increase Again in November

The 2014/2015 winter season was very difficult for many of our customers due to the extremely high market price for electricity. We are very happy that customers will see a decrease this summer but we expect prices to go up again on November 1st. Volatility in the energy market is expected to continue for New England until additional natural gas pipeline capacity is built.

Consider Levelized Budget Billing

If you would like to level out your electric bills over the course of the year, consider enrolling in Levelized Budget Billing. Under this program your monthly payment is based on a rolling average of the previous 12 months. For more information click here.

Frequently Asked Questions

Q. My larvae aren't moving. Are they dead?
A. Probably not. If you see no movement for one week, return the culture for a replacement. Intact Live guarantees that 3 of the 5 caterpillars will develop into perfect adult butterfly specimens.

Q. Do the larvae have enough air?
A. Yes, please notice the small air holes around the rim of the petri dish.

Q. Can I remove the lid and touch the larvae?
A. No. Removing the lid will introduce bacteria.
Q. What are the little green balls I see?
A. They are the caterpillars' food. It is a mixture.
Q. What do I do after the caterpillars are formed?
A. Open the lid of the cup, remove the paper disk and put it on the lower mesh wall of the Butterfly Garden habitat.
Q. What are the chrysalides looking?
A. They are a natural reaction to warmth and pressure.
Q. If a chrysalid falls off the disk, what should I do?
A. Gently remove it from the cup and lay the chrysalid on the bottom of the habitat on a napkin or paper towel.

[illegible] consumer complaints. In fact, the consumer agency received [illegible] complaints in 2008, which is the highest complaint volume we've received in a single year. Increasingly, many of the complaints we receive involve money judgments and frozen bank accounts. To help you protect yourself—and your money—DCA created this fact sheet, which includes where to turn when you need assistance.

Money Judgments

What is a money judgment?

If a court rules against you in a civil lawsuit, the plaintiff may be awarded a money judgment. This is a court order that requires you to pay a certain amount of money and

Test 1A

A Mafia Godfather finds out that his bookkeeper, Guido, has cheated him out of $10,000,000 00. His bookkeeper is deaf. That was the reason he got the job in the first place. It was assumed that Guido would hear nothing and would therefore never have to testify in court.

When the Godfather goes to confrinont Guido about the missing $10 million, he takes along his lawyer, who knows sign language.

The Godfather tells the lawyer, "Ask him where the money is."

The lawyer, using sign language, asks Guido, Where's the money?

Guido signs back, "I don't know what you are talking about."

The lawyer tells the Godfather, "He says he doesn't know what you are talking about." The Godfather pulls out a pistol, puts it to Guido's head and says, "Ask him again or I'll kill him!"

The lawyer signs to Guido, "He'll kill you if you don't tell him."

Guido trembles and signs back, "OK! You win! The money is in a brown briefcase, buried behind the shed at my cousin Bruno's house."

The Godfather asks the lawyer, "What did he say?"

The lawyer replies, "He says you don't have the balls to pull the trigger and you can go to hell."

Rent com Lease Verification Process

Partnering with Rent com is a proven cost effective way to advertise – you pay only when a lease is reported and a vacancy is filled Renters who register and view a property on Rent.com, sign a lease, move in and report the transactions to Rent com will be considered for payment of our $100 Rent com Reward Follow these guidelines to ensure that your residents receive their $100 reward without delay and that those who do not qualify are notified promptly

To support the role Rent com plays in advertising your properties we require each renter to register using their email address prior to viewing our listings This simple step is the beginning of a digital history of the ir activity on Rent com We digitally track when renters view your property on search results and when they view your entire listing photos, floor plans maps driving directions and virtual tours We also track when renters use our site to inquire via phone fax or email As you know our agreement specifies that we are only entitled to our advertising fee when the renter used Rent com to find your property – so we keep track of this activity to verify the renter's usage of our site We bill you in good faith only when we believe we have helped you secure a lease

Invoice Verification Process & Property Participation

- **Rent.com Internal Filters –** Every lease report must pass a series of filters Leases that do not meet minimum criteria do not pass our fraud filters or are reported too early or too late are never sent to you for consideration or payment It is possible that Rent.com renters will fill your vacancies and you will never get invoiced for them
- **Lease Notification** – Once the lease report clears our internal filters upon the move in date that the renter reports to us or shortly thereafter Rent com will send the property a Lease Notification for review This is your opportunity to correct any lease report information such as the renters address unit number rent price and move in date Call fax or email any changes within 7 days to ensure the invoice is processed correctly Your participation is critical to the success of this program and the satisfaction of your residents
- **Invoice Process** – Unless we receive a correction from you within 7 days after the Lease Notification, a Rent.com invoice will be generated and sent to your bill ng address. Your prompt payment is a convenient and quick way for us to verify a lease report, allowing us to issue the $100 reward to your new resident! Payment is required within 30 days of invoice If you believe there is an error on the invoice please contact us within the first 30 days – if you fail to notify us within this time period the invoice will be deemed accurate and valid
- **Expedite Renter Reward –** Rent.com will wish to expedite the processing of your residents $100 reward simply contact Rent com with your check number and estimated date of payment and we will ensure there is no delay with your resident's $100 reward card
- **Referral Source** If Rent com was not listed as the referring source in your records, simply call our bi ling department at 877 443 7368, and our staff will be happy to review the lease with you You may also fax or email a note describing the discrepancy along with the invoice or Lease Notification and copy of the guest card to the fax number noted on the Rent com invoice (866 400 3877) so we can review thel lease
- **Review** During this process, Rent.com will access and review the digital tracking data and may provide a summary of the tracking data for your review While we encourage renters to list Rent com on the guest card we realize that referral source is often the last thing on a renter s mind during their first visit to your property We want to be fair to all parties, so when Rent com can demonstrate that your resident utilized Rent com prior to visiting your property the invoice should be processed for payment to ensure the resident receives their reward
- **Early Move-Outs and Short Term Leases –** Rent.com recognizes the revenue implications of these situations and will adjust the invoice accordingly Please refer to the Fees and Credits policy for details about these fees and our terms in general http //www rent com/company/legal/fees/
- **No Charge –** Rent.com understands that there will be situations where a renter may report a lease but does not qualify for the reward If a renter never moved in, was a previous resident or claimed a resident referral please let us know and we w ll review the information and make the appropriate adjustments. Should your renter not qualify they will not receive the $100 reward We will never expect payment if our research indicates it is a non-qualifying lease Simply email or give us a call and your account will be adjusted in no time

The Rent com program is a partnership that relies on property participation to be successful Working together to reward residents that have utilized the service is in the best interest of all concerned We look forward to working with you!

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent your from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the **Automatic Reports** option to **Every Error** before attempting a test fax. This way, even if the test fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Christy Wampole, "The Essayification of Everything" (NYT Opinionator blog, 5/26/13)

THE STONE

The Essayification of Everything

By CHRISTY WAMPOLE MAY 26, 2013 5:00 PM

The Stone is a forum for contemporary philosophers and other thinkers on issues both timely and timeless.

Lately you may have noticed the spate of articles and books that take interest in the essay as a flexible and very human literary form. These include "The Wayward Essay" and Phillip Lopate's reflections on the relationship between essay and doubt, and books such as "How to Live," Sarah Bakewell's elegant portrait of Montaigne the 16th-century patriarch of the genre, and an edited volume by Carl H Klaus and Ned Stuckey-French called "Essayists on the Essay Montaigne to Our Time."

It seems that, even in the proliferation of new forms of writing and communication before us the essay has become a talisman of our times. What is behind our attraction to it? Is it the essay's therapeutic properties? Because it brings miniature joys to its writer and its reader? Because it is small enough to fit in our pocket, pumble like our own experiences?

The essayist samples more than a D.J. a loop of the epic here, a little lyric replay there, all with a signature scratch a nip

I believe that the essay owes its longevity today, mainly to this fact: the genre and its spirit provide an alternative to the dogmatic thinking that dominates much of social and political life in contemporary America. In fact, I would advocate a conscious and more reflective deployment of the essay's spirit in all aspects of life as a resistance against the zealous closed-endedness of the rigid mind. I'll call this deployment "the essayification of everything."

What do I mean with this lofty expression?

Let's start with forms beginning. The word Michel de Montaigne chose to describe his prose ruminations published in 1580 was "Essais," which, at the time meant merely "Attempts," as no such genre had yet been codified. This etymology is significant, as it points toward the experimental nature of essayistic writing: it involves the nuanced process of trying something out. Later on, at the end of the 16th century Francis Bacon imported the French term into English as a title for his more boxy and solemn prose. The deal was thus sealed: essays they were and essays they would stay. There was just one problem: the discrepancy in style and substance between the texts of Michel

Spoonbill Cove at Carlton Lakes

To: Spoonbill Cove Owners
From: Spoonbill Cove Board of Directors
Date: November 01 2016
Re: 2017 Budgets

Enclosed in this packet you will find the 2017 proposed budgets for Spoonbill Cove Commons and Spoonbill Cove I or II, whichever association applies. The Board and Property Manager worked together to prepare these budgets. Although Spoonbill Cove quarterly fees have remained the same for the past three years at $915.00/quarter, substantially increased costs during this period have caused us to rethink our planning. The proposed budgets reflect a 3.1% increase to $943/quarter. We believe this will provide us with a balanced budget for 2017.

During the past three years we have been consciously over budget and have absorbed price increases to keep the quarterly fees at the same level. We were able to do this because we had sufficient funds in our Operations checking accounts to cover the increases. Three years ago we had six (6) months worth of expenses in the bank. This has steadily declined to approximately four (4) months estimated for 2016. This is at the upper level of the 3-4 months that our accounting firm recommends.

During the past several months we have gathered a wealth of information regarding the Spoonbill Cove Reserve accounts. As you would expect, replacement costs have gone up in just about all of the categories. This will be an area of focus during 2017 and most likely we will be proposing another increase in fees each year for the next several years to properly fund our reserves.

We appreciate the consideration all owners give to making Spoonbill Cove a comfortable and pleasant place in which to live.

The 2017 budget approval meeting is scheduled for Tuesday, November 15, 2016 at 11:00. The meeting will be held at the Carlton Lakes Club House in the Library. If you have any questions on the Spoonbill Cove budgets, please contact one of the Board members prior to the meeting.

Thank you for beta-testing MakeMKV. Please see viewtopic.php?f=5&t=1054 for information about latest version.

The linux release includes full source code for MakeMKV GUI, libmakemkv multiplexer library and libdriveio MMC drive interrogation library. Please use this forum for an up to date download and setup instructions. You need to follow the steps outlined below to compile and install the application and all libraries.
Download both binary and source packages:
http://www.makemkv.com/download/makemkv-bin-1.6.8.tar.gz
http://www.makemkv.com/download/makemkv-oss-1.6.8.tar.gz

Make sure you have all required tools and libraries installed. You'll need GNU compiler and linker and header and library files for following libraries: glibc, openssl-0.9.8, zlib, qt4. You may use the following command to install all prerequisites on debian-based system like ubuntu.
Code:
sudo apt-get install build-essential libcf-dev libssl-dev libgl1-mesa-dev libqt4-dev

Unpack both packages and starting from source package do the following steps for each package:
Code:
make -f makefile.linux
sudo make -f makefile.linux install

The application will be installed as "/usr/bin/makemkv"

Please share your experience in this forum.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, first to make sure it works. How can I do that?

Virtual Fax - Free Number
Low Cost Online & Email Faxing. Use Current Email or Smartphone

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Tc — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click it's thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FreeFaxTest.com, which lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes your fax machine should ring. Hopefully, it will automatically answer and spit out the test fax.

Service discount depends on business agreement, eligible rate plans. Proof of employment or affiliation required. Discount may be modified or discontinued without notice including when your employer or affiliation status changes. Discount only applies to the monthly service charge and may take 1-2 billing cycles to appear on bill.

Mobile Share Value Savings

- If you have a Mobile Share Value line with a smartphone on an AT&T Next installment plan, or if you bought your phone at full retail price, brought your own phone, or are not paying contract, you qualify for a monthly Mobile Share Value discount of $25 for that line of service. This discount appears as a credit on your bill.
- If you just upgraded your smartphone to a 2-year wireless agreement, this confirms you will not receive the Mobile Share Value discount of $25 for the line upgraded.
- In order to keep the credit/discount when upgrading, choose an AT&T Next installment plan or bring your own phone or pay full retail price for the phone.
- Unused data from your monthly plan allowance is rounded up to the nearest MB and carries over for one billing period (Rollover Data™). Monthly plan data is always consumed before Rollover Data.
- Unused Rollover Data automatically expires after 1 billing period, with plan change, or when your group or account is terminated. Rollover Data is not redeemable for cash or credit and is not transferable.

PRISON BOOK PROJECT

Volume 11 Number 1 *The Publication of Prison Book Project* Spring 2015

Ray Hall Director

Prayer Needs

- For the prisoners who read
- For the chaplains
- For our servicemen and women in harms way

THE POWER OF THE PRINTED WORD IN PRISON

"A single book is read by 30 people and takes about 8 hours to read (30 x 8 = 240 hours).
There are 65 books per box (65 x 30 = 1950 people and 1950 x 8 = 15,600 man hours).
So just one 32$ box of books does the work of one person working full time, one-on-one for seven and a half years, without a vacation!

2014 Statistics

300,000 Books Delivered!

Serving 1,970 Facilities

Still more than 900 facilities on the waiting list

Message from Ray Hall, Director

Prison Book Project has been in operation for over 20 years. We have distributed several million Christian books to incarcerated individuals. We now receive more than a dozen send letters every month from the very inmates begging for more Christian material. I couldn't tell you that we are not able to do more.

We have now served 1,970 prisons and jails, more than 900 are still on a waiting list. We have utilized limited resources as efficiently as possible. We have tried to keep unproductive expenditures to a minimum. A large portion of any personal income and funds have been used to keep things going during hard times. A check to most people is that we have operated all this time without a payroll. Every person who labors here does so as a volunteer. Even the Community Service people are volunteers, sometimes reluctantly, but they are volunteers. The people who labor here are earning a scripture. Others sacrifice their wealth (we all in labor handed for ourselves). They accept the temporal wealth and strength in order to assist in this great mission. As we sacrifice, we understand that the reward will not be seen in this lifetime. The truth is that we do not work for rewards we work because of love. We give because the One who is Love first loved us (1 John 4:19).

So always has a penalty. When the penalty is paid, forgiveness is in order. If we desire to be forgiven, then we should be willing to forgive. We need to realize that every person who murders is a sinner, every person who steals is a sinner, and every person who has a grudge is a sinner. But unless we judge the sinner as paid—God's standard. We judge based upon our standards. God judges based on His standards. We are all guilty and need to repent. We cannot enter Heaven based upon our own goodness for we are all dirty with corruption and filth of sin. I find it strange that we expect policemen, teachers, preachers, and politicians to have a higher standard of conduct than the rest of us. The world will be a better place, when we judge ourselves by the same standards as we judge others.

We finished 2014 with the distribution of more than 300,000 books. In the past four years, we have sent out more than a million books. Last August, we began our 21st year. The numbers have become impressive. None of this would have been possible without the super staff members really wonderful folks like you.

Let's explain all of this as a baseball game as a parable. We have had a pretty good first and 2nd inning but the game is not over yet. As a matter of fact, we haven't even worked up to our 3rd. The other teams is scoring points and the game is tied. The other team's star players are Islam, Witchcraft and a dozen other weird beliefs. They are serious about winning this contest. They are working hard to discourage and convince us that the game is over and that we should just give up. We need the cheering squad now more than ever please keep the encouragement coming. Your prayers and financial support helps us put the sweat from our brow and keeps us in the game.

Ray Hall

testing fax - Online Reputation Alert

28 Jan 2011

We have found at least one defaming internet article related to **"testing fax"** This report shows on the first results page if a person searches **"testing fax"** in the major search engines (Google Yahoo Bing, Aol, Ask etc)

In today's Internet era erroneous & malicious gossip rumors unfair opinions false complaints and other bad articles can spread fast, globally! A negative article can severely damage your good name or can tarnish a company's reputation with consumers, damage its employment brand and diminish the company's value in the eyes of investors Negative news can easily compound major problems and if not tackled in a timely manner the damage can be almost irrevocable Negative publicity on the internet is costing corporations millions even if in many cases negative publicity can be outdated, inaccurate, and even made up by a competitor

Don't be a victim! Act now and take control on the situation!

Reputation Solutions can help you get to the root of the problem and solve it. To start creating, improving, restoring or defending your online reputation contact us today and get results fast.

If All Else Fails, Reputation Solutions will make the difference:

By using Reputation Solutions you can push negative publicity down in search engine results for your name or brand First you will see improvements, then we will dominate for your keywords and after that you will get a strong positive reputation that will be under your control Although the negative publicity will still exist, its effects will be greatly lessened by the fact that most web users (99%) won't ever see it.

Employee Selection Criteria

A woman called the manager of a factory that hired only married men and asked, "Why do you only hire married men? Do you think women are weak, dumb, cantankerous, or what?"

The manager replied, "None of those, Ma'am. We want employees used to obeying orders, accustomed to being bossed around, who know how to keep their mouths shut, and don't pout when I yell at them!"

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share Feedback

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for any references by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

1.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive your fax. If using **#82** before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

2.

NOTE: Whenever troubleshooting a fax issue it is good practice to call the Automatic Reports, opt on to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will quickly point to the most likely issue. There are different error codes available in different places and different parts of the fax test. Check guide here: [illegible]

1. Send a one page black and white test fax to the **1-888-Fax4me** (1-888-4[illegible]).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you with five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failures is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that

1

Determine the type of port your laptop has Most old laptops have a round port, called a PS/2. Most new models carry a USB port

2

Buy a keyboard that is compatible with your laptop's port

3

Connect your PS/2 keyboard to the PS/2 port. Alternatively, connect your USB keyboard to the USB port. Configure the device using the setup wizard

4

You also might consider connecting a wireless keyboard. Be sure your laptop and the wireless keyboard are compatible. Insert batteries into the wireless keyboard, connect the wireless receiver to your computer, and install the software

The**AGILE**Manifesto

We are uncovering better ways of developing software by doing it and helping others do it. Through this work we have come to value:

Individuals and interactions over processes and tools
Working software over comprehensive documentation
Customer collaboration over contract negotiation
Responding to change over following a plan

That is, while there is value in the items on the right, we value the items on the left more.

Kent Beck Mike Beedle Arie van Bennekum Alistair Cockburn Ward Cunningham Martin Fowler James Grenning Jim Highsmith Andrew Hunt Ron Jeffries Jon Kern Brian Marick Robert C. Martin Steve Mellor Ken Schwaber Jeff Sutherland Dave Thomas

12 Principles of Agile Software

01 Our highest priority is to satisfy the customer through early and continuous delivery of valuable software.

02 Welcome changing requirements, even late in development. Agile processes harness change for the customer's competitive advantage.

03 Deliver working software frequently, from a couple of weeks to a couple of months, with a preference to the shorter timescale.

04 Business people and developers must work together daily throughout the project.

05 Build projects around motivated individuals. Give them the environment and support they need, and trust them to get the job done.

06 Agile processes promote sustainable development. The sponsors, developers, and users should be able to maintain a constant pace indefinitely.

07 Working software is the primary measure of progress.

08 The most efficient and effective method of conveying information to and within a development team is face-to-face conversation.

09 Continuous attention to technical excellence and good design enhances agility.

10 Simplicity—the art of maximizing the amount of work not done—is essential.

11 The best architectures, requirements, and designs emerge from self-organizing teams.

12 At regular intervals, the team reflects on how to become more effective, then tunes and adjusts its behavior accordingly.

I love the idea you have for the cards. To add to that, on each card have a number they should get of that item. Ex. Qtips 10 cards with them getting 2 boxes for each card pulled. Sorry – confusing. Just call me and I will try to explain better. & if you need this info below in a printable document, I can do that.

Hair Ribbons 5/8" rolls **25 cards**

Combs **30 cards**

Barrettes **30 cards**

Ponytail Holders **30 cards**

Q tips **10 cards w/2 on each card (so when they pulled a Qtip card they would see they needed to purchase 2 boxes)**

Cotton Balls **10 cards w/2**

Fingernail Files **20 cards w/3**

Fingernail Clippers **30 cards w/3**

Fingernail Polish **20 cards w/3**

Small Lotions **25 cards w/3**

Small Mirrors **25 cards w/3**

Chapstick **25 cards w/3**

Bandaids **25 cards**

Toothbrushes/Small Toothpaste **25 cards w/4**

Also, we need to add.

Ziploc Bags
- Gallon (zipper seal) **20 w/5**
- Sandwich (zipper seal or press seal) **20 w/5**

Automatic Payment

Put your bill on cruise control

Want to take the work out of paying your bill? You can when you sign up for our Automatic Payment program. Set your payment amount and we'll take care of the rest. No checks, no stamps, no hassle. Sign up today by following the four steps below. For questions on the program contact us at 1.800.215.6195

It's Easy to Get Started!

1. Enter contact information and payment amount

Full Name* _____

Daytime Phone: _____

Additional Phone: _____

eMail Address: _____

Loan Number	Payment Amount
63010027742327	$542.90

The amount debited each month will be equal to the regular monthly Automatic payment shown above unless you indicate a different amount in the Revised Automatic Payment Amount field below.

Revised Automatic Payment Amount* _____

2. Provide bank account information for automatic payment

Bank Name _____

Bank Phone: _____

ACH Routing #: _____
(also ABA abbreviation routing number or ABA R/T are available)

Checking account #: _____
(Payments must be made on a checking account held in a U.S. financial institution in U.S. funds.)

3. Authorize monthly withdrawal

I authorize Bank of America to initiate monthly withdrawals on my Payment Due Date from my checking account. I will continue to make monthly payments payable to Bank of America until I receive a confirmation letter stating the start date and amount to be drawn for the Automatic Payment and the Terms and Conditions. Once my loan account monthly payment is scheduled to be drawn automatically my paper statement will also be no printed and mailed. You understand payments will be made automatically on my due date and you will continue to charge my account until my loan reaches maturity or I cancel the authorization. I may cancel the authorization by calling 1.800.215.6195 at least 10 calendar days before my next scheduled Automatic Payment transfer

Signatures: _____ Date: _____
(Deposit Account Holder signature required)

Checking account owner's name as it appears on checks:

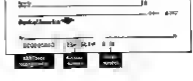
_____
(Please print name)

4. Return materials to complete enrollment

Send this form along with a voided check in the enclosed envelope to ACH Processing Team:
PO Box 45144 Jacksonville, FL 32232-5144.
You can also fax this form with a voided check to 1.804.264.2454.

Why Enroll in Automatic Payment?

- Convenience. Your payment is automatically deducted from your account. No checks to write. No payment to mail
- Reliability. Have peace of mind knowing your payment is on time, every time
- Environmentally friendly. Eliminate the clutter that piles up with monthly bills. You can find all your account details on bankofamerica.com



Bank of America

Revised 5/2/2007 Payment amount must be greater than the regular payment and cannot exceed the unpaid principal. Only a portion of principal and interest due actually pays on the account. And the actual number of the Automatic Payment equals and cancellation may be the same as the actual time may appear above on the checking account itself.

CIS 111 – Introduction to Relational Database Management Systems

(Prerequisite: CIS 105 or CIS 106 or CIS 109)

COURSE DESCRIPTION

This course provides students with an introduction to the theory and applied concepts of database design, database management, and the implementation of relational database models. Emphasis will be placed on the use of database management systems to design conceptual data models, verify the structural characteristics with normalization techniques, and implement the data models into physical database models.

INSTRUCTIONAL MATERIALS

Required Resources

Coronel, C., Morris, C. & Rob, P. (2013). *Database systems, Design, implementation, and management* (10th ed.). Independence, KY: Cengage.

Microsoft Office and Visio software or free or open source equivalents such as OpenOffice and Dia are required. Tutorials for Microsoft Office 2007 through 2013 can be found on Microsoft's support site, located at http://office.microsoft.com/en-us/support/training-FX101078705.aspx.

EasyPHP and MySQL will be used for lab assignments in which code and portions of code are provided. Students can purchase the EasyPHP and MySQL DB bundle at this time, purchase other required materials from the Strayer University bookstore, located at http://www.strayerbooks.com, or download it at http://www.easyphp.org.

Note: The USB drive that students can purchase includes all the necessary software installed and ready to use. Students will not have to install any software on their computers if they purchase the USB drive. Instructions on how to use the USB drive are provided in the online course shell.

Supplemental Resources

Chao, L. (2010). *Cloud database development and management*. Boca Raton, FL: Taylor & Francis Group.

Connolly, T. M., & Begg, C. E. (7th ed.). *Database systems: A practical approach to design, implementation, and management* (5th ed.). Addison-Wesley.

MySQL 5.6 Reference Manual. Retrieved from http://dev.mysql.com/doc/refman/5.6/en/index.html.

COURSE LEARNING OUTCOMES

1. Describe the role of database administrators, designers, and users in the development and design of information.
2. Recognize the basic development of database management systems and logical data models.
3. Recognize the basic file organization techniques.
4. Compose conceptual data modeling using techniques like entity relationship diagrams.
5. Explain how data is physically stored and accessed.
6. Recognize the purpose and principles of normalizing a relational database structure.
7. Design a relational database model at a level 1 NF.
8. Prepare entities design documents using the data definition, data manipulation, and data control language components of the SQL language.
9. Demonstrate the fundamental skills for accessing relational databases from various types of application development environments.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here s how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States) When it s finished transmitting point your web browser to Fax Toy — it s a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Reinstall the drum unit into the machine.
(See *Replacing the Drum Unit*, Page 13-23.)

Close the front cover.

Plug in the power cord first, and then plug in the telep

Replacing the Toner Cartridge

The machine can print up to 6,000 pages using a Start r cartridge. When the toner cartridge is running low, the display shows TONER LOW. The machine is supplied with a *standard* toner cartridge that must be replaced after approximately 3,000 pages. Actual page counts will vary depending on your average document type (i.e., standard letter, detailed graphics).

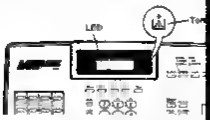
It is a good idea to keep a new toner cartridge ready for use when you see the TONER LOW warning.

Discard the used toner cartridge according to local regulations, keeping it separate from domestic waste. Be sure to seal the toner cartridge tightly so toner powder does not spill out of the cartridge. If you have questions, call your local waste disposal office.

We recommend that you clean the machine when you change the toner cartridge.

Toner Empty Indicator

When the toner cartridge is running low, the LCD shows TONER LOW and the Toner Empty icon on the control panel flashes, to indicate the toner is low.



The Toner Empty icon appears and the LCD shows TONER EMPTY. Once this icon appears, your machine will not receive print data. Install a new toner cartridge.

Thanks !!!

ADS now uses the **Automated Dispatch System (ADS)** for taking your service calls. This system offers many advantages over conventional call handling systems.

* **No Hold Time** - you never have to wait to hold to place an Automated Service Request!
* **Speed and Convenience** - you can place your call in about one minute 24 hours a day, 7 days a week
* **Accuracy** – Your Service Technician hears your description of the problem in your voice
* **Fax-Back Confirmation** – You many request a fax confirmation of your call with a confirmation number

Of course, you may speak to a live Dispatcher any time by pressing 0.

Placing a call using our Automated Dispatch System:

Have your **Equipment ID Number** ready

Call our service number at **(888) 888-8888**

1 When the Automated System answers, **press 1** to leave an Automated Service Request.

2. You will hear several prompts asking you to **speak** items such as **Equipment ID, Company Name and Address, Contact Name and Phone Number** and a **Detailed Service Message.** Follow the prompts and press * after you have completed speaking each item.

3 Once you have completed your recordings, you have the option to **Listen, Append** or **Save** your message. Press # if you wish to save your message and continue

4 You are then prompted to receive a Fax Confirmation. Press **1** for **YES** Press **2** for **NO**
* If you choose **YES** you are prompted for a **fax area code and number**
Use the buttons on your phone to enter your fax number followed by the * key
* The system will speak your fax number back to you and ask for verification

5 When you have completed these steps the system will respond, **"Information accepted"** and return to the Dispatch Service Menu. You may hang up or choose other options if you wish.

Thank you for choosing

The FitnessGram™ Pacer Test is a multistage aerobic capacity test that progressively gets more difficult as it continues. The 20 meter pacer test will begin in 30 seconds. Line up at the start. The running speed starts slowly, but gets faster each minute after you hear this signal. [beep] A single lap should be completed each time you hear this sound. [ding] Remember to run in a straight line, and run as long as possible. The second time you fail to complete a lap before the sound, your test is over. The test will begin on the word start. On your mark, get ready, start.

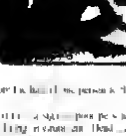
Natural treatments for head lice

BY KRISTEN WALZ
Staff Writer/Feature Columnist



Head lice are very irritating and could be found on your precious little angel. An infestation of these little critters causes very worried children and parents by most. From the dirt theories of the 1800's to the present, the fault of head lice has been placed on the head of anyone.

A scientific study and research paper proved head lice to be very harmless. Head lice do not carry any disease and are not a health risk.

Natural treatments:

■ **Vinegar**: A very easy and effective treatment to eliminate head lice is to use apple cider vinegar. Apple cider vinegar is a natural pesticide and is safe to use on children. Apple cider vinegar kills head lice, their eggs, and is a good repellent.

- Mix equal amounts of apple cider vinegar and water in a spray bottle.
- Comb your hair and part it. Then spray the solution on your scalp and hair. Make sure you get the back of your head and behind your ears.
- Let the solution sit for 30 minutes.
- Wash your hair with your regular shampoo.
- After washing, dilute vinegar with an equal amount of water and use the solution to rinse your hair. This process helps to loosen the nits (eggs) and makes it easier to remove them.
- Use a nit comb to remove the nits and lice.
- Repeat once a week for about two months.

■ **Olive Oil**: Olive oil is a natural insecticide that can effectively kill head lice and their eggs.

- Mix equal parts of olive oil and vinegar.
- Comb your hair and part it. Then apply the mixture to your hair and scalp. Make sure you get the back of your head and behind your ears.
- Cover your hair with a shower cap and let it sit overnight.
- In the morning, wash your hair with your regular shampoo.
- Use a nit comb to remove the nits and lice.
- Repeat once a week for about two months.

■ **Mayonnaise**: Another popular home treatment for head lice is mayonnaise. Mayonnaise can successfully suffocate head lice and their eggs.

- Coat your hair thoroughly with mayonnaise. Cover with a cap or plastic or a shower cap. You can even wrap a towel over the plastic. Leave on for a minimum of five to six hours. Wash your hair well with your regular shampoo. Dry your hair using a hair dryer as the heat can kill the lice and their eggs.
- Use a nit comb to remove the lice and nits.
- Repeat once a week for about two months.

■ **Petroleum Jelly**: Petroleum jelly can also have a suffocating effect on lice. The oil can be used to get rid of head lice. Petroleum jelly will also loosen the nits by clogging the breathing hairs making it impossible for them to survive for very long.

- Apply a thick layer of petroleum jelly on the scalp and hair. Cover your head or shower cap and leave it on overnight. In the morning, wash the jelly off with your regular shampoo.
- Use a nit comb to remove the lice and nits.
- Repeat once a week for about two months.
